WWW.BERETTA.COM

At the core of Beretta is a passion.
An understanding of the wild places. The cold fields of autumn.
The high grass and the low marsh. Rain and sun. Man and dog.

It's an understanding that is pure and real.
It lives in the deepest reaches of the hunter's heart.
The innermost corners of the shooter's soul.
And it is everywhere.
A field in Tuscany. A lake in Wyoming. The flash of a tail. The thunder of wings.

And then there is the stirring. The relentless search for balance.
Between what has gone before and what is yet to be.
Between then and now and tomorrow.

This is the passion that drives Beretta. It's in our genes.
And so, too, is it in our hearts. It's why we exist.
And it's why we have endured for nearly 500 years.
Because of one purpose. One passion.

BERETTA
A FAMILY TRADITION

La Presidenza
Fabbrica D'Armi Pietro Beretta S.p.A.
Via Pietro Beretta, 18
25063 Gardone Val Trompia
Brescia, Italy

Dear Friends,

It is with great pleasure that I welcome you to our newest edition of the Beretta Annual.

This book not only showcases the breadth and scope of Beretta products, but stands as a testament to the concepts that have made our brand what it is today. Beretta was built on a foundation of reliability, craftsmanship, and a drive for innovation. From those principles we have never wavered.

But our company has also been shaped by a set of beliefs that have guided and driven our decisions as we navigated the centuries. The first of these is integrity, perhaps the foremost reason we have succeeded over so many years. Responsibility goes hand in hand with integrity. Being a good steward and doing the right thing will take you a long way. Finally, we have a passion for all that we do. You see it in the details of our handiwork and in our commitment to our customers.

These are the cornerstones that built Beretta; they represent my family's passion and drive what we do every day. In the context of that historic background, in this Annual I am pleased to present a new way for our customers to look at Beretta.

What does this mean?

After nearly 500 years, we have not abandoned our passion. We are more committed to it than ever. Rather, the new categories under which you will find Beretta's products are a truer reflection of who we are. Beginning with my family, Beretta employees live, love, and believe in what we do. For us, it's much more than just a brand: it's a lifestyle. Just like you, the Beretta family's outdoor pursuits are wide ranging: upland, big game, waterfowl, competition shooting, Western and more. Because of this, we are committed to bringing you all-inclusive collections of firearms, apparel, and accessories—designed to complement each other and suit your passion, whatever it might be.

Cav. Ugo Gussalli Beretta
President, Beretta USA Corp.

INTRODUCING
THE UPLAND SPORTSMAN

The beating of wings. The beating of your heart. The expectant and eager look in the eyes of your dog seemingly frozen in time. It is a scene you've both played out many times before. Yet it feels as fresh and exhilarating as the first time you swung your shotgun toward the skies. No matter the day's result, this moment is reward enough. Here, success is measured in the sheer joy of watching your dog work, in the beauty of cradling a finely crafted shotgun, and in finding the opportunities to test your mettle against nature.

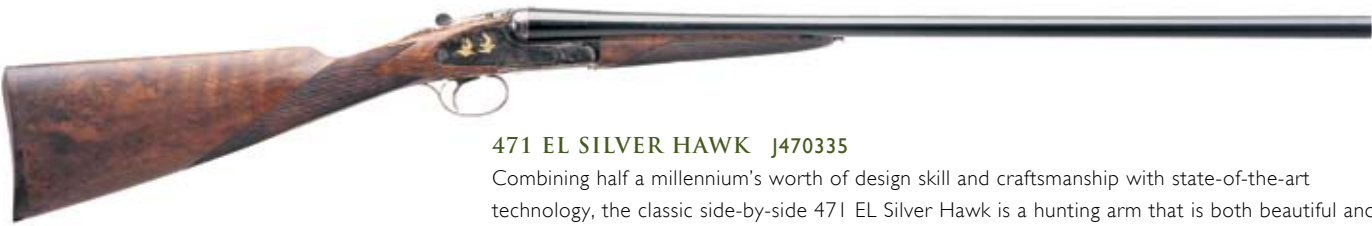

These moments are what bring you back season after season. A respect for nature, harmony, and heritage are the hallmarks of the Beretta Upland Sportsman. Hallmarks that are reflected in Beretta's superb collection of fine shotguns perfectly suited for their purpose in the field, superior upland apparel designed to meet the challenges of nature, and accessories that perfectly complement your passion and pursuit.

THE UPLAND SPORTSMAN
SILVER HAWK SERIES

471 SILVER HAWK J471240

Extensive scroll and leaf engraving and a gold-filled hawk's head on the top lever make the 471 Silver Hawk a prestige item you'll be proud to carry in any company. Just like the 471 EL, this side-by-side's frame is made of a steel alloy rich in nickel, chromium and molybdenum for durability and beauty. Both shotguns feature barrels joined to the monoblock by a laser system that creates the strong, secure Beretta barrel assembly.

471 EL SILVER HAWK J470335

Combining half a millennium's worth of design skill and craftsmanship with state-of-the-art technology, the classic side-by-side 471 EL Silver Hawk is a hunting arm that is both beautiful and rugged. Its lines and finishes recall the best of a bygone era. The classic English-style buttstock and splinter fore-end are made of oil-finished select walnut. Case-hardened sideplates with Beretta's unique coloring process are decorated with eye-catching gold-filled game bird scenes.

The 12-gauge Optima-Choke tubes feature longer tapered construction, assuring greater pellet concentration and better distribution of shot.

The sideplates are attached without visible screws, for a classic understated look.

THE UPLAND SPORTSMAN
687 EELL DIAMOND PIGEON COMBO

687 EELL DIAMOND PIGEON COMBO J687300

In Italian, EL stands for extra lusso (extra luxury). The EELL designation takes that quality to an even higher level. This is an over-under with the feel and allure of a classic game gun for the discriminating sportsman who appreciates all the finer points of a well-made shotgun. The patented locking system creates a particularly slim receiver, making it one of the most elegant, finely balanced and responsive shotguns in the world. The extensive hand-chased engraving, combined with the highly figured oil-finished walnut, makes a classic statement of your good taste.

The sideplate design gives the engraver full scope for his craft. When combined with fine walnut, nothing is quite so pleasing.

The extensive hand-chased engraving extends to the trigger plate and trigger guard.

THE UPLAND SPORTSMAN
687 EL GOLD PIGEON II COMBO

687 EL GOLD PIGEON II COMBO 20/28 J687260

Striking figured walnut and distinctive engraving make the 687 EL Gold Pigeon II a luxurious hunting arm that will satisfy your need for a personalized field shotgun. The exceptionally strong, reliable, low-profile receiver is enhanced with rich engravings. The stocks and fore-ends are cut from superior quality walnut and built to withstand a lifetime of use and to guarantee a perfect balance and quick target acquisition. This is a gun that will be the companion of a lifetime.

“WE HAVE MANY BERETTA SEMI-AUTOMATIC SHOTGUNS THAT HAVE WELL IN EXCESS OF 300,000 ROUNDS OF AMMO FIRED THROUGH THEM. IN FACT, WE HAVE AN ONYX O/U SHOTGUN (SHOWN ABOVE) THAT HAS MORE THAN A HALF MILLION DOCUMENTED ROUNDS OF AMMO FIRED THROUGH IT...AND IS STILL GOING STRONG. IN OUR BUSINESS WE DON'T HAVE TIME TO MESS WITH PRODUCTS THAT DON'T PERFORM.”

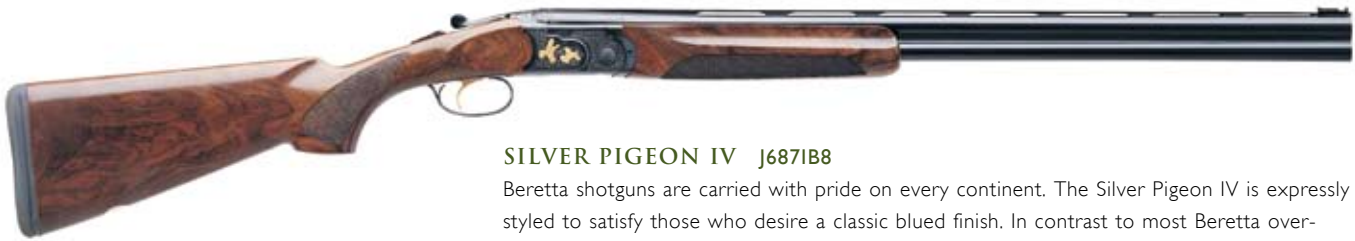

— Zeke Hayes, *Trek Safaris*, www.treksafaris.com

THE UPLAND SPORTSMAN
SILVER PIGEON FAMILY

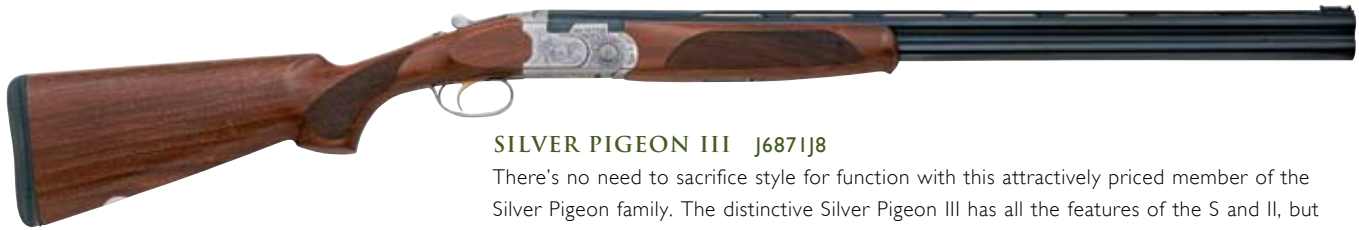

SILVER PIGEON V J6871R8S

The pinnacle of the Silver Pigeon line, this prestigious over-under is stocked in richly figured, oil-finished walnut and detailed with gold game bird inlays and a Beretta gold medallion underneath. The receiver is treated with Beretta's proprietary process that imparts a classic Color-case finish that ensures metallurgical integrity and a distortion-free part. A joy to own and shoot, thanks to Beretta's superior mechanical refinement and innovative technology, the Silver Pigeon V will last for generations.

SILVER PIGEON IV J6871B8

Beretta shotguns are carried with pride on every continent. The Silver Pigeon IV is expressly styled to satisfy those who desire a classic blued finish. In contrast to most Beretta over-unders, it has a rich, classic black frame, accented by gold inlays that reflect the typical quarry for each gauge. It's a striking gun that stands out—even among other Berettas.

SILVER PIGEON III J6871J8

There's no need to sacrifice style for function with this attractively priced member of the Silver Pigeon family. The distinctive Silver Pigeon III has all the features of the S and II, but with more extensive engraving, including game scenes, on the frame. Available in a trim and racy 28 gauge made on its own properly scaled frame, this finely crafted shotgun with natural pointability is up to any hunting challenge.

THE UPLAND SPORTSMAN
687 SILVER PIGEON FAMILY

687 SILVER PIGEON II COMBO 20/28 J687155

Designed to perform, the Silver Pigeon II Combo is also as beautiful to the eye as it is to the touch. The oil-finished stock is select walnut with a traditional Schnabel fore-end; bold game scene engraving separates it from other shotguns. This over-under also enjoys the Beretta's legendary pointability, thanks to the 680 series low-profile receiver. Furthermore, the absolute strength of the unique locking system provides for years of trouble-free use.

687 SILVER PIGEON C

Add a bit more distinction to your shotgun with the 687 Silver Pigeon C. Developed to fulfill the needs of British shooters for an over-under with all the performance features of the Silver Pigeon line, but with an upgraded finish. This model sports a case-hardened finish on the receiver and higher grade wood. In every other respect, the Silver Pigeon C offers all the design technology that makes Beretta over-unders the most responsive in the world.

THE UPLAND SPORTSMAN
686 SILVER PIGEON S

686 SILVER PIGEON S .410 J686S52

With the same level of mechanical refinement as Beretta's higher end over-unders, this entry-level shotgun offers an economical way to enjoy both the aesthetics and quality of a prestigious Silver Pigeon. The extensive floral and scroll engravings are executed on a satin nickel-alloy finished receiver that is exceptionally resistant to wear and corrosion. And the dual-cone locking mechanism stands up to years of constant shooting.

THE UPLAND SPORTSMAN
686 ONYX PRO AND 686 WHITE ONYX

686 ONYX PRO J686S30

Every bit as rugged as it is beautiful, the Onyx Pro features Beretta's exclusive X-Tra Wood finish that allows hunting in the harshest of conditions without the fear of damaging fine woods. You'll also quickly appreciate the recoil reducing Gel-Tek pad that keeps your shoulders fresh through hundreds of rounds. A striking example of the gunmaker's art, this over-under features a blued frame with Beretta's Dura-Jewel machining accenting subtle markings and a gold trigger.

686 WHITE ONYX J6862K6

At some point in every sportsman's hunting life—whether as a novice or a seasoned shooter in need of an additional gauge—a no-nonsense, versatile tool is called for. The 686 White Onyx, with its streamlined stock design for fast target acquisition, top mounted bolt-lug design for secure barrel lockup, and easy maintenance, fits the bill. The satin nickel frame is accented with Beretta's Dura-Jewel finish for a classic look.

The recoil reducing Gel-Tek pad on the Onyx Pro series keeps your shoulder fresh through hundreds of rounds.

Beretta over-unders are known for their slim, low-profile receivers that let the shotgun rest low in the hands for superb pointability.

THE UPLAND SPORTSMAN
ULTRALIGHT SERIES

ULTRALIGHT DELUXE J687575

When game trails are long and terrain is rugged, every ounce comes to tell as the hours pass. The Ultralight is a 12 gauge that carries like a small bore. The key to the Ultralight's feathery feel is a light but strong aluminum frame, reinforced at the breech face and shoulders with hard, durable titanium. In this Deluxe version, Beretta has added highly figured oil-finished walnut stock and full floral engraving with gold-filled game birds.

ULTRALIGHT J687559

Like the Ultralight Deluxe, this sturdy over-under will help you stay afield. The lightweight aluminum and titanium alloys keep weight to the very minimum while preserving the smooth, sure handling you expect from a Beretta. The Ultralight has a semigloss-finished walnut stock with a Schnabel fore-end. Its receiver is distinctively decorated with the very game birds a hunter might pursue with Ultralight in hand.

Why low profile? Beretta's box lock mechanism allows a lower profile receiver. This benefits the shooter's accuracy, providing improved hand-to-eye coordination for instinctive shooting.

THE UPLAND SPORTSMAN
AL391 TEKNYS GOLD

AL391 TEKNYS GOLD J391T36

The AL391 Teknys Gold brings unmatched design and prestige to the most discriminating autoloader aficionado. Beretta's ultimate field autoloader, this distinctive sporting arm with superb recoil control performs as well as it looks. Its semiautomatic gas system cycles ammunition ranging from feathery target loads to thumping 12-gauge, 3-inch magnums. Select oil-finished walnut buttstock and fore-end with polished side panels are complemented by deeply engraved hunting scenes.

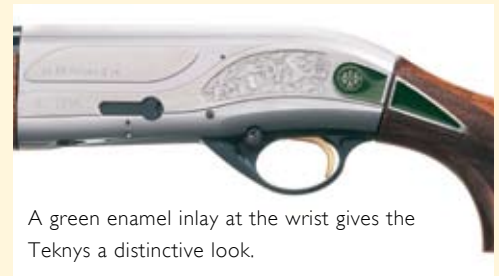

AL391 TEKNYS J391T18

With a nickeled frame adopted from double guns and the proven self-compensating gas system of the Urika, the AL391 Teknys defines both style and substance. The graceful lines of the silvery receiver blend seamlessly into the curves of the stock. Even with its luxurious look, you won't be afraid to take this Teknys out in the harshest elements thanks to Beretta's waterproof, weather-resistant X-Tra Wood stock and receiver.

THE UPLAND SPORTSMAN
AL391 URIKA

AL391 URIKA J391111

The workhorse of the Beretta autoloading line, the AL391 Urika's self-compensating gas system allows it to digest everything from the lightest target loads to the heaviest 2-ounce magnums. It's the answer to any hunting challenge. Reliability is the hallmark of this smooth-shooting, long-lasting auto shotgun. The 12 gauge is fitted with Beretta's Optima-Bore overbored barrel to cut recoil and improve patterns.

The 12-gauge Optima-Bore overbored barrel cuts recoil, improves patterns.

Beretta's self-compensating gas valve lets you shoot the full range of today's ammunition, including lightloads, which challenge the reliability of inertia shotguns.

An elastomer buffer at the receiver rear buffers the bolt when shooting high velocity loads.

THE UPLAND SPORTSMAN
3901 SERIES

3901 AMBASSADOR J390A18

Beretta tradition and innovation come together in an extraordinary autoloading shotgun that is made in America. The 3901 Ambassador sports the rich warmth and climate shielding protection of Beretta's X-Tra Wood stock and fore-end. You'll also find it has the softest shooting gas system around and a high strength steel alloy hammer-forged barrel. The Ambassador is further refined with a high polished receiver with a tasteful engraving scheme, Gel-Tek recoil pad, and optional (included) TruGlo fiber-optic front sight.

Also see pages 24 – 25.

A jeweled bolt and carrier are supplied on the Ambassador.

The most refined of the 3901 series, the Ambassador is adorned with extensive engravings.

“BETWEEN THE TWO OF US, FRANK AND I SHOT 10,725 ROUNDS OF AMMO THROUGH OUR NEW BERETTA 3901 AUTOLOADERS. WITH HIGH VOLUME SHOOTING LIKE THIS, THE LOW RECOIL AND FAST CYCLE TIME GAVE US GREAT SHOTS TIME AFTER TIME. OUR SHOTGUNS WORKED FANTASTICALLY ON OUR RECENT TRIP TO ARGENTINA.”

— Pete Brownell, Vice President, Brownell's—
World's largest supplier of firearms accessories and gunsmithing tools.™

Beretta autoloading shotguns are the preferred brand in high-volume Argentina shooting because of their superior reliability, durability, and most importantly—soft shooting qualities. In particular, the 3901 series is extremely easy to disassemble for quick and easy maintenance.

THE UPLAND SPORTSMAN
3901 SERIES

3901 STATESMAN J390S18

Like the Ambassador, the 3901 Statesman autoloader is made in America and features semiautomatic gas operation with a self-compensating exhaust valve, high strength steel alloy hammer-forged barrel, Mobilchoke versatility, and a removable trigger group locked in place by a single pin. The Statesman continues the 3901 family tradition of rugged reliability with a simple understated elegance and simple uncomplicated adornment. This is a shotgun to be carried into the field with pride and confidence.

Also see pages 24 – 25.

A blued bolt and carrier provide a classic look.

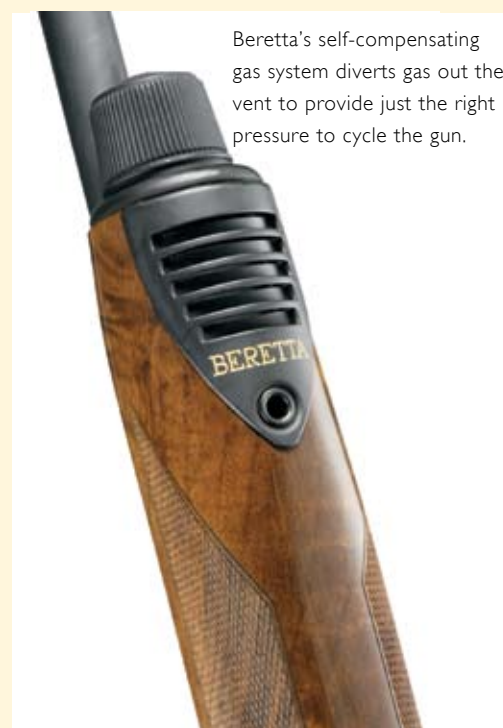

Tasteful engravings lend an understated elegance to the Statesman.

BURRIS IMAGE STABILIZING BINOCULARS

Contain a revolutionary system of gyro vibration sensors and direct-drive motors to counteract vibration for shake-free viewing.

Beretta's self-compensating gas system diverts gas out the vent to provide just the right pressure to cycle the gun.

THE UPLAND SPORTSMAN THE 3901 STORY

BERETTA USA CORP. MANUFACTURING FACILITY IN ACCOKEEK, MARYLAND

Although its reputation and reliability were forged in the battles of clay target competitions around the world, Beretta's new 3901 shotgun is a proud product of the U.S.A. Made in America at the very same factory that manufactures the legendary M9 for the United States Armed Forces, this new workhorse was designed to take afield into the game coverts and flyways of America.

Beyond the pride of its birthplace, the 3901 family of autoloading shotguns (Target RL, Rifled Slug, Ambassador, Statesman, and Citizen) comes with an impressive heritage. The award-winning and competition-proven A390 shotgun was the launch pad for the 3901.

Rugged and reliable, but with all the refinements befitting its "Made in America" legacy, the new 3901 shotguns offer the softest shooting gas system around, a high strength steel alloy hammer-forged barrel, Mobilchoke versatility, and a removable trigger group locked in place by a single pin.

BERETTA USA CORP. HEADQUARTERS--ACCOKEEK, MARYLAND

INTRODUCING
THE AMERICAN WATERFOWLER

Up before dawn on a cold and damp November morning. Coffee is brewing, your gear is carefully packed, and your retriever is waiting anxiously to do what he was born to do. As you head for the waiting shore, it seems a moment for which you, too, were born. Crouched in a blind with your dog quivering against your leg. The thunder of wings above. The hope of the day ahead. Then that one heart-stopping, defining moment: the shot, the splash, the retrieve.

These are the slices of time that stir the soul, that define the American Waterfowler's passion for the pursuit of the wild places. It is a passion backed by the confidence that your Beretta shotgun and gear are absolutely up to this specific challenge—no matter what the elements throw at you. That's a confidence, backed by 500 years of tradition and technological innovation, you can count on with every pull of the trigger or zip of the jacket.

THE AMERICAN WATERFOWLER

XTREMA2

KICK-OFF

Optional Kick-Off hydraulic dampening reduction system reduces recoil dramatically.

SYNTHETIC

HARDWOODS HD CAMO

MAX-4 HD CAMO

Whether you are hunting the marshes or the wide open fields, there's a finish to handle the situation. The synthetic stock in black, Max-4 HD Camo or Hardwoods HD Camo stands up to the elements.

UNTREATED

TREATED

AQUA

Using accelerated salt spray testing, the unprotected steel barrel section (top) shows corrosive effects while the Aqua-technology protected barrel (bottom) looks brand new.

XTREMA2 MOLDED CASE

Fitted, lined polypropylene case keeps the many supplied accessories in place. Includes 5 choke tubes, choke tube wrench, sling swivels, Beretta oil and butt plate or recoil pad.

“SOFT SHOOTING, HEAVY DUTY, RELIABLE, AND AMAZINGLY EASY TO CLEAN. THE XTREMA2 REPRESENTS QUITE POSSIBLY THE FINAL WORD IN 31/2-INCH SEMI AUTOS.”

—Phil Bourjaily, *Field & Stream Magazine*

WHEN WE DESIGNED A GUN FOR THE MOST EXTREME ENVIRONMENTS, WE WERE SURE TO WIN SOME EXTREME AWARDS.

Xtrema2

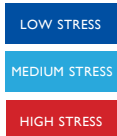

XTREMA2 J391C28

In 2002, Beretta introduced the original Xtrema. This gun quickly garnered *Field & Stream's* "Best Gun of the Year Award," *Guns & Ammo's* "Editor's Awards for Gun of the Year," and *American Rifleman's* "Golden Bulleye Award." In the relentless pursuit of excellence, our engineers have once again set the benchmark for a "do-it-all" shotgun in the form of the new Xtrema2—*Shooting Illustrated's* "Shotgun of the Year."

This superb autoloading shotgun was designed and built to reliably function 2³/₄-inch, 1-ounce equivalent loads through brutal 3¹/₂-inch magnum loads—interchangeably if you so desire. The Xtrema2 has more recoil reduction features than any other autoloading shotgun on the planet!

STANDARD GEL-TEK

STRESS CONCENTRATION IMAGING

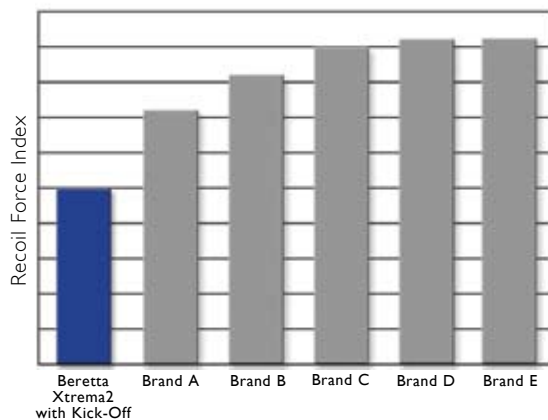

This shows the behavior of the Gel-Tek pad during the shooting cycle. Note the homogenous distribution of stress over the entire surface.

WHY BERETTA GAS OPERATED VS. INERTIA

Beretta's unique self-compensating semiautomatic gas operation system is considered the best in the world. The soft shooting gas system's recoil reduction, which automatically vents the excess gases of even the most powerful cartridges, simply can't be matched by inertia operated shotguns, which generally transfer the full recoil signature to the shooter. It is completely self-contained with no loose inertia springs or o-rings to lose while field-stripping.

RECOIL REDUCTION

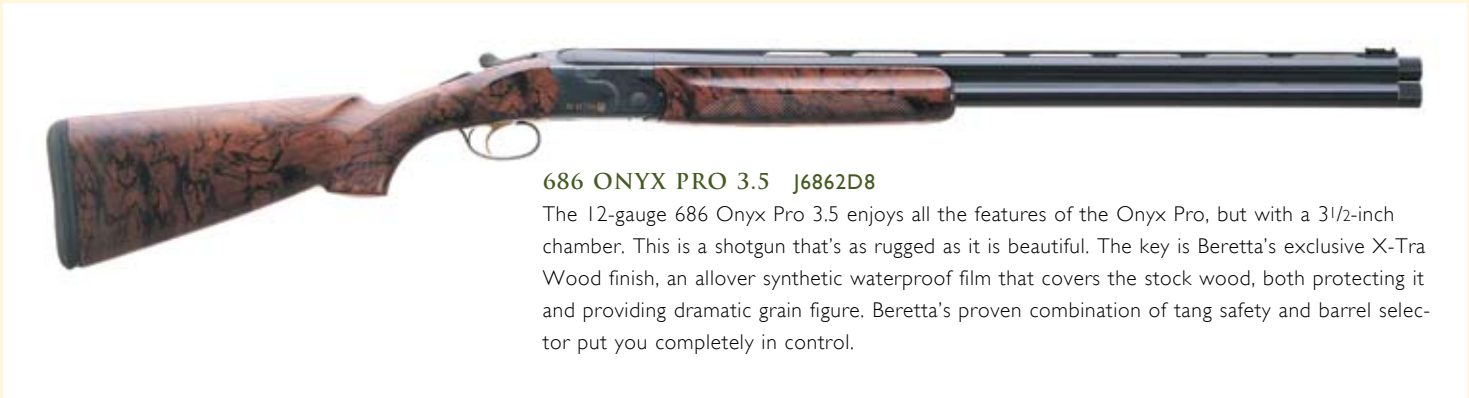

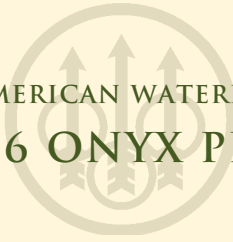

Beretta's new Kick-Off hydraulic dampening reduction system reduces recoil an astounding 44% more than its closest rival by using two hydraulic recoil dampers incorporated into the stock "spacer" unit. The recoil energy is gradually dissipated by the hydraulic dampers, resulting in superior comfort for the shooter.

THE AMERICAN WATERFOWLER
686 ONYX PRO

686 ONYX PRO 3.5 J6862D8

The 12-gauge 686 Onyx Pro 3.5 enjoys all the features of the Onyx Pro, but with a 3 1/2-inch chamber. This is a shotgun that's as rugged as it is beautiful. The key is Beretta's exclusive X-Tra Wood finish, an all-over synthetic waterproof film that covers the stock wood, both protecting it and providing dramatic grain figure. Beretta's proven combination of tang safety and barrel selector put you completely in control.

X-Tra Wood and a lustrous frame finish make the Onyx a striking example of the gunmaker's art. As with the White Onyx, the Onyx Pro offers Dura-Jewel enhancements.

Wood
X-TRA

This wood enhancement finish affordably reproduces the rich grain pattern of Beretta's premium grade walnut. The wood core maintains the warmth and feel of wood, while the film adds climate-shielding protection to the wood.

The film is protected by a scratch-resistant semigloss lacquer, while the straight-grained wood core guarantees years of use in all shooting environments.

Beretta's proven combination of tang safety and barrel selector put you fully in control.

THE AMERICAN WATERFOWLER
AL391 URIKA AND 3901 CITIZEN

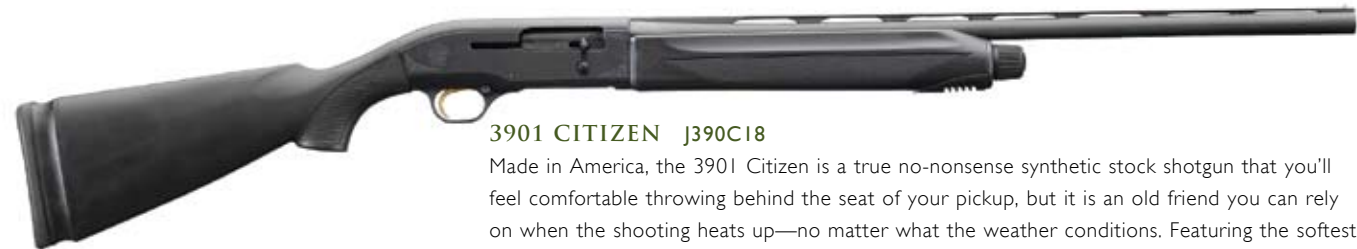

AL391 URIKA MAX-4 HD OPTIMA J391386

A smooth shooting, long-lasting auto shotgun, the AL391 Urika MAX-4 HD features the most effective and up-to-date camo pattern on the market—no matter which flyway you shoot on. Beretta's well-proven, self-compensating gas system provides just the right pressure for a wide range of loads, while the Optima-Bore overbored barrel cuts recoil and improves your patterns.

AL391 URIKA SYNTHETIC OPTIMA J391371

For the waterfowler who enjoys his shotgun in basic black and prefers the durability and versatility of a synthetic stock, this sleek autoloading shotgun is the answer. The hammer-forged barrel is chrome lined for corrosion resistance and easy cleaning, while Beretta's self-compensating gas valve lets you shoot the full range of your favorite ammunition.

3901 CITIZEN J390C18

Made in America, the 3901 Citizen is a true no-nonsense synthetic stock shotgun that you'll feel comfortable throwing behind the seat of your pickup, but it is an old friend you can rely on when the shooting heats up—no matter what the weather conditions. Featuring the softest shooting gas system around, a high strength steel alloy hammer-forged barrel, and Mobilchoke versatility, the autoloading Citizen is a model of rugged reliability, uncomplicated adornment and American pride.

THE AMERICAN WATERFOWLER TURKEY HUNTING

Xtrema2

XTREMA2 HARDWOODS HD J391E26

Designed from the outset to work hard for you, the Xtrema2 Camo Hardwoods HD incorporates Aqua technology for extreme protection against the elements. The improved trigger group, introduced in 2005, provides for an extremely crisp, light pull and short travel for quick follow-up shots. This “do-it-all” shotgun features soft shooting gas operation, an integrated spring-mass recoil reducer, Optima-Bore overbored barrel and Kick-Off recoil reduction.

AL391 URIKA HARDWOODS HD OPTIMA J391375

Dressed in camo that disappears in nearly every setting, the AL391 Urika Hardwoods HD is a foil for the gobbler's keen eyesight. This reliable autoloader is a real workhorse, too. Beretta's self-compensating gas system allows for smooth shooting in a wide range of loads, while the Optima-Bore system reduces recoil and improves pattern performance by easing the shot charge's passage from cylinder to bore.

INTRODUCING
THE BIG GAME HUNTER

You've waited a lifetime, or so it seems, for this very instant. You've tracked this desired prize, this trophy, not just for hours or days, but since the very first time you brought the smooth finish of the comb to rest against your cheek. Since the very first day, you took to the mountains or the plains to test yourself against the world's most sought-after game. With the prize finally in your sights, you squeeze and put your faith in the hands of your—and the gunmaker's—experience and expertise.

For the Big Game Hunter, the thrill of the hunt is paramount. Everything about it, from spectacular wilderness hunting fields to the perfect fit and feel of a superbly crafted rifle to the cut and durability of field-proven clothing, feels right. No one understands that better than Beretta. Our Big Game Hunter collection—apparel, accessories and our offering of superb Finnish Sako and Tikka rifles—has been tested time and again by professional guides and hunters to ensure your pursuit is undertaken with only the very best of everything at hand.

THE BIG GAME HUNTER
SAKO 85 HUNTER

sako

Home to an impressive number of top Olympic shooters, Finland is also home to some of the world's finest rifles. For over eighty years, Sako Ltd. of Finland has impressed the world with its passion for quality and its commitment to offering shooters the best rifles that technology can offer—without compromise. Sakos are regarded the world over as truly custom rifles at production prices. The sole importer in the United States, Beretta is proud to call this brand a prominent part of its family.

Classic straight comb with shadow-line cheekpiece.

The new, patented, Total Control Magazine Latch prevents accidental release of the detachable stainless steel magazine under the heaviest recoil or the harshest of hunting conditions. If desired, the magazine may be reloaded without being removed from the rifle.

SAKO'S FIRST NEW PRODUCT IN A DECADE
WORLD'S FINEST PRODUCTION RIFLE

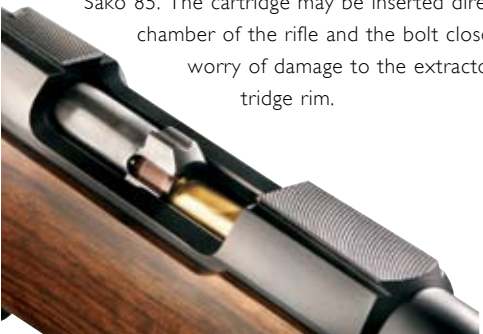

SAKO 85 HUNTER JS1A43

The new Sako 85, a celebration of the riflemaker's 85th anniversary, is a superbly executed medley of tradition, technology and precision. Continuing Sako's time-honored tradition of crafting exceptional rifles for the hunter and target shooter, the Sako 85 incorporates the features most sought after by experienced riflemen: controlled-round feeding, an exceedingly fast lock time, a user adjustable trigger, 70-degree bolt handle lift with a silky smooth bolt travel, and broad flat bedding surfaces. The rifle's stock is crafted from select walnut and features the classic straight comb and shadow-line cheekpiece that premium-rifle owners appreciate. Individually factory tested and guaranteed to shoot five-shot groups of 1 MOA or less out of the box.

The Sako 85 Short Claw Extractor commands total control of the cartridge, engaging the extractor groove of the cartridge as the cartridge rises from the magazine, positively guiding the cartridge into the chamber of the rifle. When single-round feeding, most controlled-round feed rifles require the cartridge to first be placed into the magazine. Not so the

Sako 85. The cartridge may be inserted directly into the chamber of the rifle and the bolt closes without any worry of damage to the extractor claw or cartridge rim.

**PRECISION AND
SPEED EQUALS
ACCURACY**

The Sako 85 offers the shooter a crisp, single-stage trigger, user adjustable between 2.2 and 4.9 pounds, and an incredibly fast total lock time of under 1.3 milliseconds.

**.338 FEDERAL – BIG GAME PERFORMANCE
IN A NEW RIFLE CALIBER.**

Federal Premium has chosen the Sako 85 as the benchmark rifle for the first-ever cartridge to bear the Federal name.

- A soft-recoiling .338 with magnum performance
- Flatter trajectory than a .308 Win
- More muzzle energy than a .30-06
- Fits in a light .308-length action
- Ideal for all-around North American big game

THE BIG GAME HUNTER
SAKO 85 STAINLESS SYNTHETIC

SAKO 85 STAINLESS SYNTHETIC JRSB20

A masterful blending of Sako performance, tasteful innovation and world-class Giugiaro design, this synthetic-stock rifle features a controlled-round feeding all-stainless action and a match-grade, free-floating, hammer-forged stainless steel barrel. No matter how long a downpour, this rifle will be ready to hunt. The FinSoft recoil-absorption system dramatically reduces felt recoil, especially in the shooter's cheek as the comb line moves down under recoil.

SAKO 85 STAINLESS SYNTHETIC

ACTION	3 LUG BOLT ACTION
CALIBER	12 CALIBERS, SEE FIREARMS INDEX
STOCK	SYNTHETIC W/OVERMOLDED GRIPS, BLACK
RECOIL PAD	FINSOFT, BLACK

SIGHTS	INTEGRAL TAPERED SCOPEMOUNT DOVETAILS
MAGAZINE	DETACHABLE, 5-ROUND CAPACITY, 4 W/WSM
WEIGHT	S ACTION 6.4 LBS, SM AND M ACTION 6.6 LBS

Every Sako barrel is cold-hammer-forged and finished in-house to ensure match-grade accuracy. The muzzle crown is carefully cut by hand and final inspection is done using the most complex and highly refined optical fine tuning instrument known to man: the human eye.

SAKO 85 SYNTHETIC EXCLUSIVES

Synthetic-stocked rifles frequently weigh less than their wood counterparts and, therefore, recoil slightly more. The innovative FinSoft recoil pad system absorbs and dissipates recoil forces away from the cheek, in more than one direction. Left-handed shooters can convert the stock with an accessory cheekpiece (not included).

SAKO REQUIRES THAT EVERY RIFLE MUST FIRE A 1-INCH, 5-SHOT GROUP FROM 100 YARDS, PRIOR TO LEAVING THE FACTORY.

THE BIG GAME HUNTER
SAKO 85 GREY WOLF

SAKO 85 GREY WOLF JRS2C4I

A natural-born Finnish hunter, the Sako 85 Grey Wolf features the same all-stainless barreled action as its cousin, the Sako 85 Stainless Synthetic, combined with an attractive, natural-feel, ultra-tough checkered grey laminated stock. The stainless barreled action and warp-free stock make this rifle perfect for hunting in extreme conditions while retaining the traditional warm look and feel of the wood stock.

SAKO 85 GREY WOLF

ACTION	3 LUG BOLT ACTION
CALIBER	9 CALIBERS, SEE FIREARMS INDEX
STOCK	LAMINATED HARDWOOD, MATTE GREY/BLACK
RECOIL PAD	RUBBER, BLACK
SAFETY	POSITION WITH BOLT LOCK RELEASE
TRIGGER	SINGLE-STAGE, ADJUSTABLE
SIGHTS	INTEGRAL TAPERED SCOPEMOUNT DOVETAILS
MAGAZINE	DETACHABLE, 5-ROUND CAPACITY, 4 W/WSM
WEIGHT	S ACTION 7.25 LBS, SM AND M ACTION 7.5 LBS

The bedding of the receiver is critical to the accuracy of any rifle. The flat bottom and side profiles of the Sako 85 receiver in conjunction with the innovative recoil lug, integral to the stock, allow stockmakers to mate the receiver to the stock with a degree of precision which is far more difficult to achieve with round profiled receivers and conventional recoil lugs. These flat surfaces also reduce the torque twist of the receiver against the stock bedding surfaces that occurs when a rifle is fired, prolonging the accuracy of the bedding.

The lengthened rear bolt guide makes an already smooth action even smoother. Typically, the shorter the action the more susceptible it is to bolt bind due to decreased bearing surface area. The lengthened rear bolt guide surface of the Sako 85 ensures the smoothest possible bind-free bolt travel, even in the very popular WSM chamberings.

THE BIG GAME HUNTER
SAKO QUAD SERIES

sako
quad

One rifle now allows you to own any or all of the four most popular rimfire cartridges available. Truly unique in the world of rimfire rifles, the Sako Quad lets you select any of the four interchangeable cold-hammer-forged rifled barrels and change them in seconds. The barrels may be removed and replaced without change in the point of impact. The Sako Quad features a supersmooth bolt throw with a short 50-degree bolt handle lift, detachable magazine, and user adjustable trigger system. Complete rifles and optional spare barrels chambered for .22 LR, .17 HMR, .22 WMR or .17 Mach2 are available.

SAKO QUAD HUNTER JRSR301

New for 2006 – 2007, the Sako Quad Hunter features an attractive oil-finished walnut stock that will please even the staunchest traditionalists. Sako craftsmen have created a new checkering pattern integrating the distinctive “shark-gill” design of the original Quad Synthetic with traditional cut checkering. Like the Synthetic, the Quad Hunter features a detachable magazine, adjustable trigger, and minute-of-angle accuracy.

SAKO QUAD SYNTHETIC JRSR100

The Sako Quad Synthetic defines versatility and durability in the rimfire rifle world. The Quad Synthetic marries all the precision and innovative features of the Sako Quad barrel and action system with the rugged durability and stability of a fiberglass-reinforced copolymer synthetic stock.

THE BIG GAME HUNTER
SAKO QUAD SERIES

SAKO QUAD COMBO JRSR2C1

17 Mach2, .17 HMR, .22 LR, .22 WMR. Each of these four great rimfire cartridges works best for specific shooting needs. Now, there is no need to ponder over whether you have chosen the best small-bore rimfire caliber. The Sako Quad Combo is one rifle, four barrels, and two unique dual-caliber color-coded magazines. Available in either Hunter Combo or Synthetic Combo.

Each barrel and magazine is color coded for easy recognition. Just match the barrel band color with the correct dot color on the magazine. As an added feature, the magazines provide a unique safety system to prevent insertion with the wrong barrel in place.

A high quality fitted aluminum case with barrel changing tool and room for a scope is supplied as standard with the Sako Quad Combo.

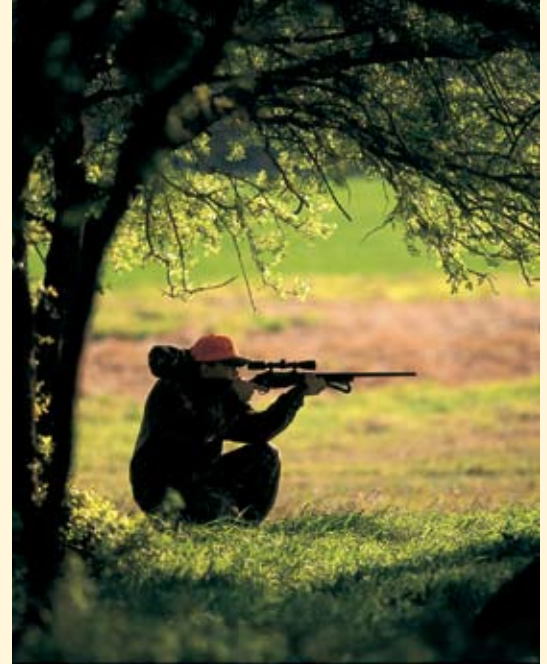

BURRIS SAKO QUAD 3-9X32MM SCOPE

Color-coded windage and elevation adjustments are matched to the color coding on the Sako Quad barrels. Once calibrated for each of the calibers, a barrel change requires only a turn of the corresponding dial to zero the scope to the appropriate barrel.

THE BIG GAME HUNTER TIKKA T3 SERIES

Redefining what a hunter can expect from a rifle in its modest price range, the Tikka T3 is taking the American market by storm. The principle around its design is bold: with today's available technology, there is no excuse not to incorporate the most desirable features in a rifle. So the engineers at Sako in Finland and the designers at Giugiaro in Italy went to work. The result is truly the finest production rifle available to the American shooter, a rifle that incorporates an action, an adjustable trigger, distinctive styling at a truly unbeatable price tag. But most importantly, each one of these rifles only leave Finland after grouping three shots under 1 inch at 100 yards, making them an industry benchmark for out-of-the-box accuracy. Beretta is proud to be the sole importer of Tikka rifles in the United States.

TIKKA T3 DELUXE JRTD316

The most striking member of the Tikka hunting-rifle lineup, the Tikka T3 Deluxe's high-quality walnut stock sports an oil finish and is embellished by a rosewood fore-end tip and grip cap. To please even the most traditional of tastes, the T3 signature tripartite checkering is blended with a classic three-point design, making the T3 Deluxe a showstopper in all regards. The rifle's action is the already-legendary T3, rightfully known for its smooth bolt operation and crisp trigger-pull. The hammer-forged barrel is renowned for its accuracy.

Tikka barrels are precision cold-hammer-forged and free floated from the stock. The muzzle is hand crowned for a perfect finish, allowing for the highest degree of shooting accuracy.

THE BIG GAME HUNTER
TIKKA T3 SERIES

TIKKA T3 STAINLESS CAMO JRTV116

An ideal companion for the hunter who seeks his quarry without the cover of a hunting blind. The T3 Camo Stainless' synthetic stock sports a High-Definition Realtree Hardwoods pattern that blends into most natural environments, thereby greatly increasing your chances of success. The barreled action is the same as on the famed T3 Lite Stainless, making bolt-travel smooth, trigger-pull crisp and accuracy guaranteed. Non-reflective satin metal finish ensures the rifle will not produce any game-alerting glare.

The trigger unit is made of special steel components housed in a durable aluminum alloy body. The trigger is cut with vertical grooves on its face for a good grip and the sear is hand honed to perfection. Pull weight can be adjusted from 2 to 4 pounds.

Aluminum alloy ringmounts are included with all T3 models to accommodate 1-inch diameter scopes with objectives up to 40mm.

Optilock ringmount systems, with self-aligning polymer insert ring, are an available option for greater scope mounting versatility (1 inch and 30mm).

THE BIG GAME HUNTER
TIKKA T3 SERIES

TIKKA T3 HUNTER JRTA340

The Tikka T3 Hunter features a glass-smooth action, a crisp, adjustable trigger, free floated match-grade hammer-forged barrel and a perfect mating between stock and metal. No Tikka T3 is even put on the shipping dock unless it groups 3 shots within 1 inch or less at 100 yards. Besides this fabulous performance, the T3 Hunter features a blend of Giugiaro distinctive checkering with the classic elegance of wood.

TIKKA T3 LITE STAINLESS

ACTION	BOLT ACTION WITH 2 LOCKING LUGS, PLUNGER EJECTOR
STOCK	WALNUT
RECOIL PAD	RUBBER
SAFETY	TWO-POSITION
TRIGGER	SINGLE-STAGE, ADJUSTABLE FOR WEIGHT
MAGAZINE	DETACHABLE
SIGHTS	NONE
RINGMOUNTS	YES

The detachable magazine is a straight, true feeding 3- or 5-shot, single-column design for fast and sure repeating. Made of a strong fiberglass composite, ensuring durability.

TIKKA T3 LITE STAINLESS JRTB316

Synthetic stocks are the choice of hunters who must face tough weather conditions. With its stainless steel finish, the Tikka T3 Lite Stainless offers even better resistance to the elements. The lightweight, injection-molded stock is a godsend to hunters who spend long days in the mountains, as is its guaranteed accuracy. With a Giugiaro-designed stock, this rifle's harmonious and functional layout is both handsome and fast handling.

The two-position safety catch is easy and precise to operate. When engaged, it blocks the bolt and trigger. When the two red dots shown are exposed, it indicates the rifle is ready to fire.

THE BIG GAME HUNTER TIKKA T3 SERIES

GIUGIARO
DESIGN

T3 BIG BOAR JRTU116

Inspired by the strengths of the mighty game animal, the T3 Big Boar is perfect for the hunter who chases his quarry in dense woods or from a tree stand, or for the rancher who likes to keep a versatile rifle handy. Just as accurate as its full-size brothers, this synthetic features a quick-handling 19-inch cold-hammer-forged and free-floated barrel. Durable fiberglass-reinforced polymer stock with a straight comb and ambidextrous palm-swell.

RINGMOUNTS	YES

A short bolt-lift angle of 70 degrees combined with a bolt throw to match the cartridge length means quick and smooth bolt cycling.

TIKKA T3 VARMINT JRTH312

Serious varmint hunting and benchrest shooting require the hyperaccuracy of the Tikka T3 Varmint. The cold-hammer-forged barrel has a true varmint-style "bull" contour for maximum rigidity and absolute performance. The stable synthetic stock incorporates a high comb and wide forearm for better stability. As with all Tikka T3 rifles, the muzzle crown is concave and hand-turned—a custom feature that will enhance the performance of your rifle by protecting the lands and grooves from anything that may come into contact with the muzzle.

The ridged Tikka receiver is topped off with integral rails for use with Optilock mounts. This action is also drilled and tapped for use with conventional bases.

THE BIG GAME HUNTER RIFLED SLUG GUN

In many areas of the world, the Rifled Slug Gun is the firearm of choice for non-dangerous big game hunting and there is no finer choice than the Beretta series of Slug Guns. Both Beretta Slug Guns feature 24-inch barrels with a rifling profile and a 1:28 rate of twist optimized for superior accuracy with sabot-style slugs. These barrels feature chrome-lined chambers and bores for ease of cleaning and rust resistance. The integral cantilever Picatinny scope-mount rail ensures constant ridged alignment of the scope to the barrel for maximum accuracy and accepts common Weaver-style scope rings, such as Sako Optilock and Burris systems.

Xtrema2

XTREMA2 SYNTHETIC RIFLED SLUG GUN J391H24

No other inertia or gas autoloader can match the Xtrema2 on reliability, recoil reduction, and simplicity of maintenance. Featuring Aqua technology for extreme environmental protection, the Xtrema2 Synthetic Rifled Slug Gun is constructed of advanced corrosive-resistant materials in all its internal and external components.

3901 RIFLED SLUG GUN J390R14

Designed for the American Big Game Hunter, the 3901 Rifled Slug Gun is a 12-gauge, gas-operated semiautomatic with a 3-inch chamber. Its ribless and sightless barrel features clean, snag-free lines, making it ideal for negotiating dense woods or the confines of a deer-blind. Its heavier contour makes the barrel more rigid and the gun softer-recoiling. The stock is black, high-impact synthetic with traditional point-checkering patterns.

THE COLLECTION
KING RANCH

The Main House at King Ranch Santa Gertrudis Division headquarters.

The Old West lives today. King Ranch, the birthplace of America's ranching industry—a trade that sparked a new way of life and contributed to the timeless romance of the cowboy—is a coveted destination for hunting and other outdoor-style adventures. The ranch's great expanse of 825,000 acres is an unspoiled habitat for a vast amount of native game as well as exotics.

Founded by Richard King in 1853, the historic Texas ranch's many accomplishments include the breeding of the Santa Gertrudis, the first American breed of cattle, as well as the first registered American Quarter Horse.

Inspired by this legendary ranch, Beretta has created a series of limited-edition guns featuring hand-chased engraving in extraordinary detail by Beretta's Master Engravers. Look for the "Running W" checkering pattern on stocks and fore-ends, rope-bordered logo engravings, and hinge pin engraving inspired by the King Ranch living room ceiling decorations.

SAKO 75 DELUXE JRSX002

The perfect mating of deep blue steel and richly figured wood, prized by expert hunters since the 19th century, is recaptured. This version features a special "Running W" checkering pattern on the pistol grip and fore-end; the magazine floorplate sports a gold-filled "Running W" emblem.

THE COLLECTION KING RANCH

AL391 TEKNYS GOLD JS391KR2

This distinctive autoloader features attractive King Ranch brown enamel inserts on the stock and receiver. Deeply engraved Santa Gertrudis Ranch stable scenes complement the polished side panels.

686 SILVER PIGEON S JS686KR4

All the aesthetics and materials of Beretta's premium over-and-unders with special receiver artwork featuring a rope-bordered logo and Santa Gertrudis Ranch stable engraving. Like all King Ranch shotguns, the engraving is all hand chased.

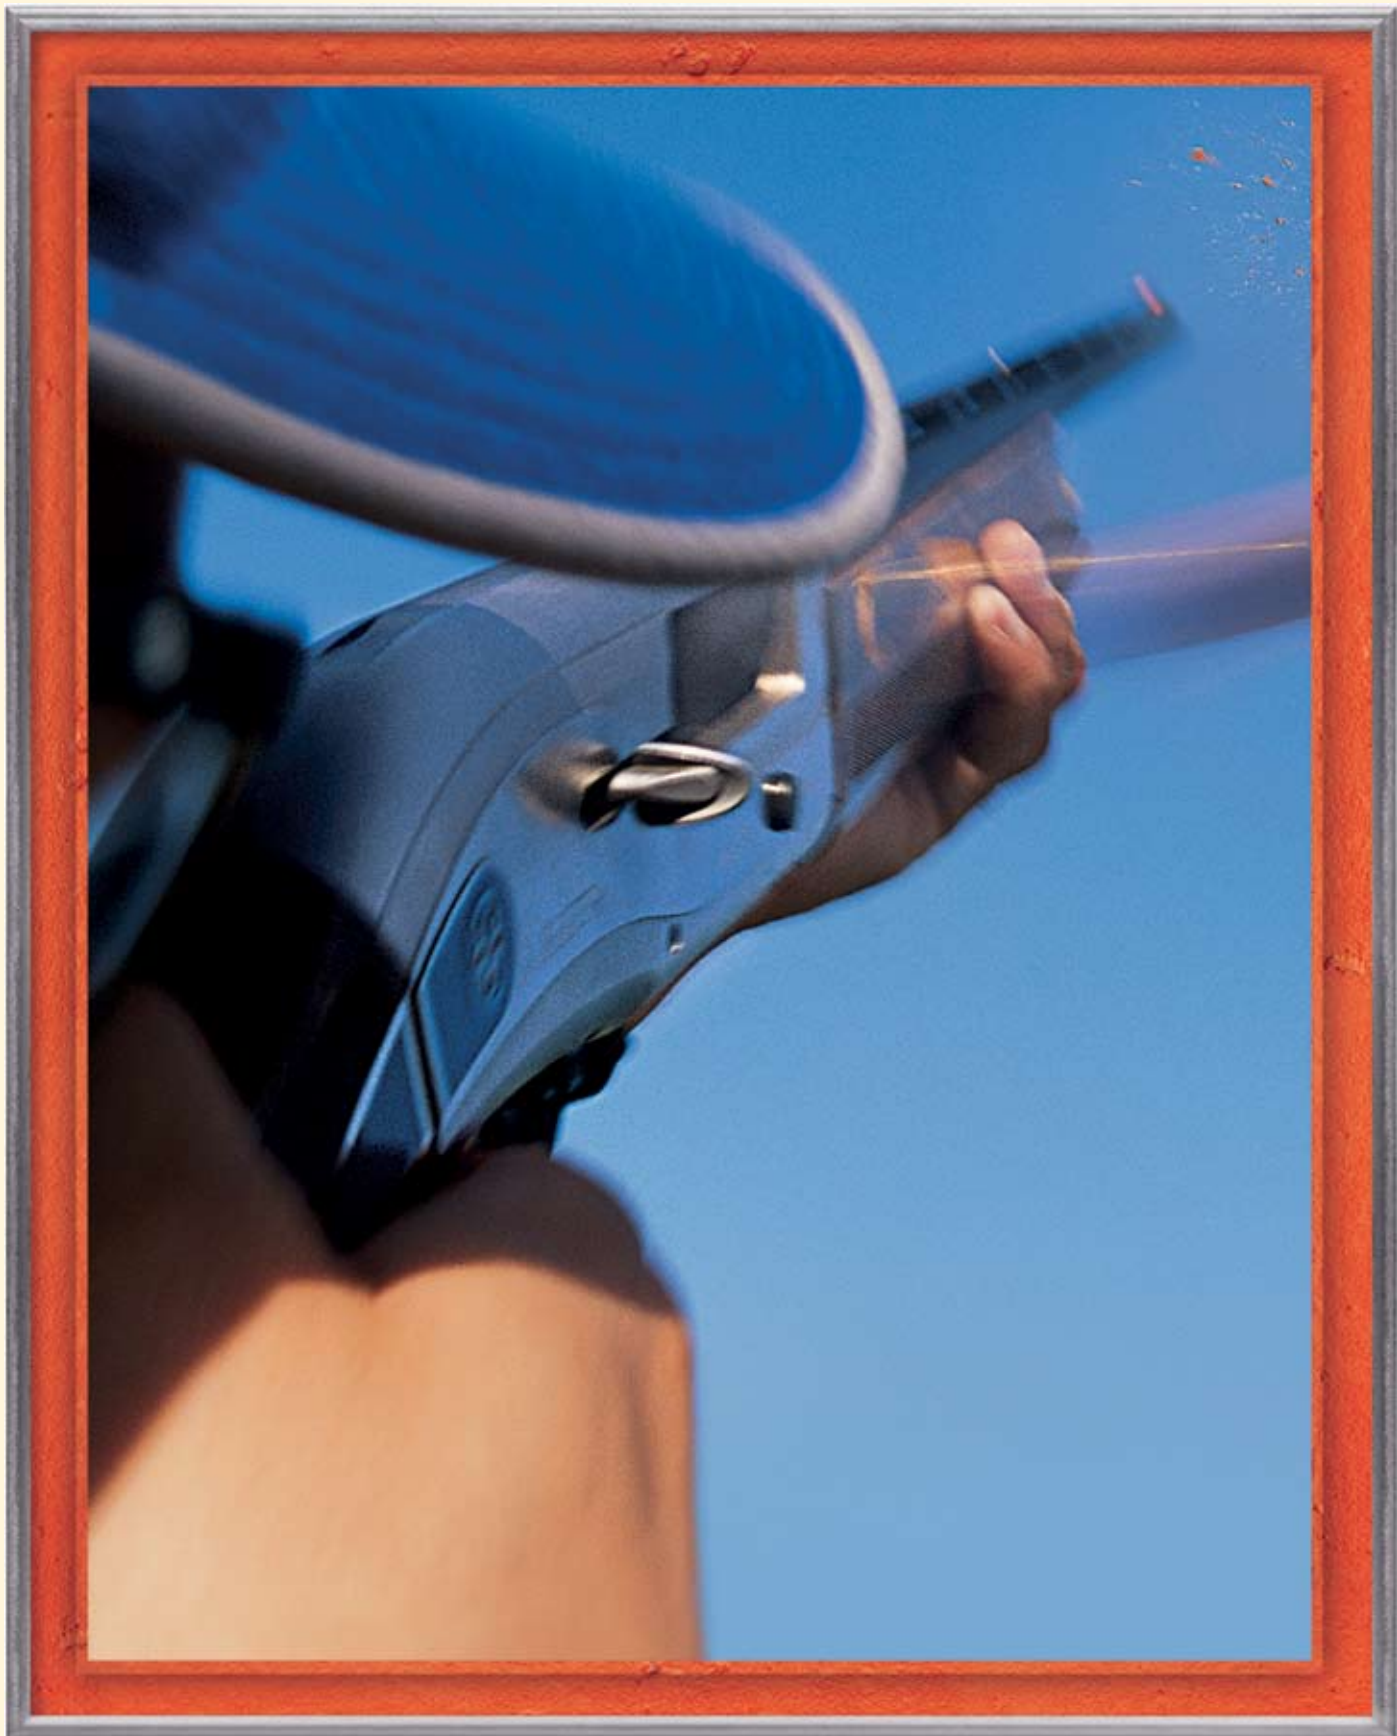

687 SILVER PIGEON IV JS687KR2

For the American hunter, a striking over-and-under that stands out even among other Berettas. It has been further enhanced with special receiver artwork of cowboy herding scenes and King Ranch's famous Santa Gertrudis bull, "Monkey."

EELL DIAMOND PIGEON JS687KR6

An over-under with the feel and allure of a classic game gun. Features special receiver artwork of cowboy herding scenes and "Monkey," the first and famous King Ranch Santa Gertrudis bull. Also features King Ranch fireplace decoration and Santa Gertrudis Ranch stable.

WWW.SHOPBERETTA.COM

INTRODUCING
THE VICTORY SHOOTER

The scorecard, the moist palms, and the lineup of like-minded competitors might indicate otherwise. But as the clays fly across your line of vision, you stand alone, competing against no one but yourself. Every inch of your being is focused, balanced, alert, working in unison. There's no denying you are here to win, to stand proudly on the podium. But more than anything else you are here to perform unfalteringly. To prove you've shot your very best.

To compete successfully, the Victory Shooter requires dependable performance. Not just from themselves, but from their shotgun and the specialized apparel and accessories that work together to give them a competitive advantage. Designed for maximum performance in any event, Beretta's competition guns and clothing are the epitome of the craft, a testament to optimum control and reliability—as gold medal winners worldwide will attest.

THE VICTORY SHOOTER
3901 TARGET RL

NEW

The 3901 Target RL's adjustable comb helps give you the competitive edge by allowing you to regulate your personal sight picture. The stock is also adjustable for cast on/off and comes equipped with Beretta's patented Memory System II feature that lets you remove and replace the comb without losing your individual settings.

“BERETTA REALLY DID ITS HOMEWORK FOR THE NEW 3901 TARGET RL. AS A RESULT, THIS SHOTGUN ADDRESSES ONE OF THE BIGGEST PROBLEMS THAT WE SEE IN WORKING WITH YOUTH SHOOTERS: THE ADJUSTMENTS REQUIRED DUE TO GROWTH SPURTS. THE FACT THAT THE 3901 TARGET RL WILL GROW WITH THE SHOOTER AND IS AFFORDABLE, MAKES IT VERY ATTRACTIVE.”

— Lance Rider, *Coach of the McKenzie Girls Team in Tennessee*

DESIGNED TO GROW WITH THE YOUNG SHOOTER A FIRST AND LASTING SHOTGUN

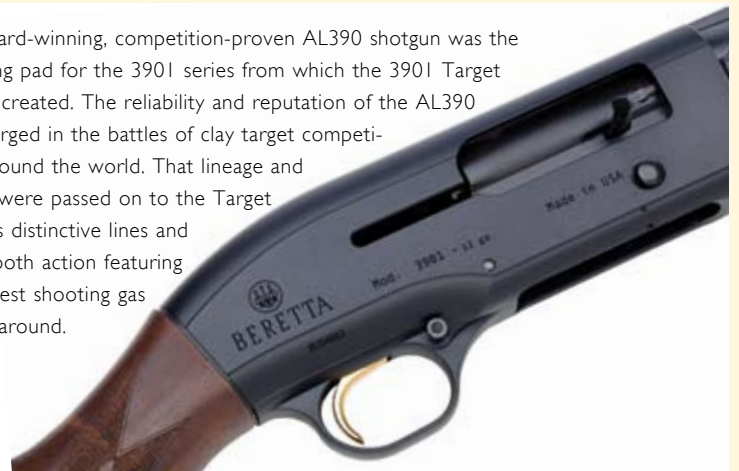

3901 TARGET RL J390Y18

Beretta is strongly committed to instilling a lifelong passion for the sport of shooting in young shooters. That's why the 3901 Target RL was designed from the ground up as the ideal first shotgun for youth. Developed in cooperation with the NRA Youth Program, Scholastic Clay Target Program, Boy Scouts of America and other organizations, this is a shotgun that grows with the young shooter. The semiautomatic allows the beginner to shoot a 12 gauge with the benefit of a gas operating system that reduces the felt recoil. It also features an adjustable length of pull from 12 to 13 inches and a specially designed shorter stock that's adjustable for cast on/off. The stock comes equipped with Beretta's Memory System II to adjust the parallel comb. Because of these attributes, the 3901 Target RL also makes the perfect shotgun for new shooters and smaller stature sportsmen and women.

Another feature that makes this semiautomatic ideal for young shooters—and those who teach them—is that you can limit its capacity to just one shell. Through the use of the supplied magazine plugs (in yellow), the capacity of the 3901 Target RL can be configured to a single shot. This 12-gauge, 3-inch, chambered shotgun also comes in both 26-inch and 28-inch barrel lengths. The barrel comes equipped with a Sporting-style flat rib with white front bead and mid-bead. The standard walnut stock and forearm are finished in a satin matte finish.

The award-winning, competition-proven AL390 shotgun was the launching pad for the 3901 series from which the 3901 Target RL was created. The reliability and reputation of the AL390 were forged in the battles of clay target competitions around the world. That lineage and history were passed on to the Target RL in its distinctive lines and the smooth action featuring the softest shooting gas system around.

**687 EELL DIAMOND PIGEON SPORTING
 AND AL391 URIKA GOLD**

687 EELL DIAMOND PIGEON SPORTING J687966

One of the most elegant, finely balanced and responsive double barrel shotguns in the world, the 687 EELL Diamond Pigeon 12 gauge is the epitome of luxury and performance for the competitive shooter. Beretta's extensive hand-chased engraving and highly figured select walnut set this shotgun apart from all others. Just like the field version in every luxurious detail with the added benefit of a wider rib for better target acquisition.

AL391 URIKA GOLD SPORTING OPTIMA J391941

Complete with the superior design, control, and reliability of the AL391 Urika hunting versions, the Urika Gold Sporting Optima possesses added features that make it a true competition shotgun. The stocks, fore-ends and butt plates are designed for maximum performance. The rounded receiver profile and broad, ventilated rib ensure quick target acquisition. While the self-compensating gas system makes it one of the softest shooting autoloaders.

682 GOLD E TRAP COMBO J682E30

Whatever your target discipline, the 682 Gold E can help you dominate. For the trap shooter, you'll find the 682 Gold E Trap perfect for your passion. It features an adjustable comb and Beretta's Optima-Bore barrel system with long forcing cone and overbored internal bore diameter. And the distinctive receiver engraving and inlay pattern immediately identify it as a target gun.

682 GOLD E SPORTING J682E70

Designed to be shot hard with conical locking lugs engineered to compensate for the wear of thousands of rounds, the 682 Gold E Sporting has all the features to keep you at the top of your game. The recoil shoulders are replaceable (a must for avid shooters), the palm-swell allows for a more positive grip and the Optima-Choke tubes give you smoking clay patterns. This is a beautiful shotgun, from the select walnut to the elegant engraving.

"WHEN I PURCHASED MY 682 GOLD E SPORTING I WAS VERY IMPRESSED BY THE LEVEL OF FIT AND FINISH. THE FIRST TIME I SHOT A ROUND OF SPORTING CLAYS WITH IT, I SHOT A 47 OUT OF 50. THE SECOND TIME, I SHOT 49 OUT OF 50. I AM PROUD TO SAY THAT I OWN SEVERAL BERETTA OVER-UNDERS AND THIS WON'T BE MY LAST. THE 682 GOLD E IS AN AMAZING SHOTGUN. THANK YOU, BERETTA, FOR EXCEEDING MY EXPECTATIONS."

— Jason Valiga, Beretta Customer

THE VICTORY SHOOTER DT10 TRIDENT

DT10 TRIDENT BOTTOM SINGLE TRAP COMBO JDT3130

A shotgun that's at home at any level of competition, from league night at your home club to the Olympics, the DT10 Double Trap is Beretta's top-of-the-line competition shotgun. Like all DT10s, this model is designed discipline specific. In addition to the rich engraving and fine wood, you'll never have to worry about a broken spring or clogged mechanism thanks to the DT10's quick-detach, removable trigger group.

DT10 TRIDENT SKEET JDT4110

For skeet devotees, there's no finer choice than the DT10 Skeet, no matter what level of competitive shooting you participate in. Both the skeet and trap versions feature an adjustable comb that allows you to regulate your personal sight picture. Beretta's patented "Memory System" lets you remove and replace the comb without losing your individual settings. All DT10s feature Beretta's patented Optima-Bore barrel system and Optima-Choke tubes.

Visit the Beretta website for complete information.

THE VICTORY SHOOTER
AL391 TEKNYS GOLD FAMILY

AL391 TEKNYS GOLD SPORTING J391941

The AL391 Teknys Gold is Beretta's ultimate field autoloader. With an added suite of standard and optional features, it becomes the ultimate autoloader for the sporting clays course. Along with its distinctively engraved Beretta logo and blue enamel inserts, every Teknys Gold Sporting has an 8.5-ounce recoil reducer fitted in the buttstock. Among its many sporting features is a fast bolt release that allows for fatigue-free shootings when shoot-offs last all afternoon.

Both sides of the receiver feature blue-enameled inserts that unite the receiver and buttstock in a stylistic look and distinguish it from the green-enameled field model.

Stock recoil reducer mounted in both 12- and 20-gauge Teknys models.

THE VICTORY SHOOTER
THE BERETTA TEAM

Can you imagine winning the World Shotgun Championship at 16 years old? The U.S.A.'s Vincent Hancock did just that this past year in Lonato, Italy, with an out-of-the-box Beretta DT10. He became the youngest shooter ever to win the world championship.

Hancock joins a prestigious list of some of the most respected and talented names in the sport of competitive shooting who embody the winning spirit of Beretta. From the Olympics to regional shoot-offs, a Beretta is usually in the hands of the champion. Beretta's gallery of champions from around the world are a testament to their skill, determination and performance under pressure. Like Beretta's competition guns, they represent the epitome of their craft.

VINCENT HANCOCK
DT10 TRIDENT
(OUT OF THE BOX UNMODIFIED)

In the world of international skeet shooting, Vincent Hancock of Eatonton, Georgia, has been simply dominant. At just 16 years old, he won a gold medal win at his World Championship debut, becoming the youngest shooter to be crowned world champion. He has set every men's skeet world record while accomplishing what no one else has ever done: win seven medals in seven major International Shooting Sports Federation competitions.

TRAVIS MEARS
390 GOLD & BERETTA DT10

This 18-year-old from Burleson, Texas, is a five-time National Sporting Clays Association (NSCA) All American and was the youngest Gold Medalist ever at the ESPN Great Outdoor Games. Mears was also the 2003 NSCA 5 Stand Junior RU National Champion, three-time Texas State 4-H High Overall Champion and two-time Junior Olympics Silver Medalist in Doubles Trap.

HALEY DUNN DT10 TRIDENT

At 21 years old, Dunn burst onto the international skeet shooting scene by setting a World Record and Junior World Record at the 2005 World Cup in Korea. Dunn followed that up with gold at the Championships of the Americas and the World Cup Finals in Dubai. She had the top finish for the United States in women's skeet at the 2005 World Clay Target Championships and won the 2005 ACUI Clay Target Championship in women's international skeet and five stand.

THE VICTORY SHOOTER
THE BERETTA TEAM

ANDREA BENELLI
DT10 TRIDENT

Olympic champion Andrea Benelli of Italy won gold in men's skeet at Athens in 2004 after taking the bronze in Atlanta in 1996. Overall, he has captured eight gold, four silver and three bronze in the World Championship. Benelli's amazing gold medal career also includes 16 gold at the Trial World Cup, nine gold at the Italian Championship and eight at the European Championship.

SCOTT ROBERTSON
AL391 TEKNYS GOLD SPORTING

For three-time World Champion and eight-time National Champion, Scott Robertson stepping to the awards stand has almost become as much a part of his life as shooting. A gold medalist at the 2003 ESPN Great Outdoor Games and 13-time All American, Robertson of Flower Mound, Texas, has Pan-American, Caribbean Cup and Ducks Unlimited National championships among his many accomplishments.

AHMED AL-MAKTOUM
682 GOLD E

A member of Dubai's ruling family and a former national squash champion, Ahmed Al-Maktoum entered the Olympic record books as the first-ever medalist from the United Arab Emirates when he blasted to gold in men's double trap shooting at Athens in 2004. Al-Maktoum, who did not take up shooting until the age of 34, has also taken gold at four World Cups, a World Championship and an Asian Championship.

INTRODUCING
THE PISTOL SHOOTER

Whether testing your skills in competition, polishing them at the target range, or defending your home and family, there are certain things you demand from your firearm. Tops among these demands are absolute reliability, consistent accuracy, and optimal safety. But beyond these essential traits, your pistol is an extension of your personality. Your preference may run to the fastest or lightest or most technologically advanced. Or to the familiar standbys that still feel perfect in the palm and right on the money at the range.

As a Beretta Pistol Shooter, you can also expect innovation, versatility, and superior design and workmanship. Because in the handgun stakes, Beretta wins—hands down. The automatic choice of marksmen, sportsmen, and military worldwide, Beretta pistols carry with them their own cachet and reputation. And deservedly so. A Beretta pistol is both a triumph of design and reliable performance, offering the user the most advantageous combination of form and function.

THE PISTOL SHOOTER
90 TWO

NEW

90two

90 TWO J9T9F11

The revolutionary Beretta 90 TWO pistol introduces new improvements to form, fit and function while maintaining the integrity and reputation of its predecessor, the legendary Beretta 92/96 Series. Featuring a technopolymer removable single-piece wraparound grip in two sizes (standard and slim), increased magazine capacity, internal recoil buffer (softer shooting, less felt recoil), captive recoil spring guide assembly and quick assembly feature, the 90 TWO has evolved to individually fit the hand of each operator, while maintaining accuracy and reliability.

The 90 TWO comes with a large array of safety features, including an ambidextrous double safety on the slide with a hammer decocking function and automatic firing pin block safety.

THE NEXT GENERATION HAS ARRIVED.
SPECIAL HANDGUNS FOR SPECIAL TASKS

The new removable single-piece, ergonomic and modular grip unit allows for quick and easy grip replacement. The rear upper part is precisely curved and relieved for a firmer, more comfortable grip and to snugly fit the shooter's hand.

Located forward and under the barrel for light and laser accessories, the accessory rail is machined integral to the receiver. An accessory rail cover protects the rail and permits the pistol's smooth insertion into the holster.

With innovative lines and rounded corners, the 90 TWO incorporates new benefits while maintaining all the advanced performance and safety features that made the 92 pistol series an international legend. The interchangeability and modularity of the components, together with the integral accessory rail (shown with the Burris Xtreme Tactical Laser Flashlight) and removable grip unit make this pistol ready to meet any operational requirement.

92FS

92FS J92F300M

From the jungle heat of Panama to the sandstorms of Iraq, the U.S. Armed Forces have counted on Beretta pistols for almost two decades of distinguished service. The 92FS, Beretta's premier full metal gun, most resembles the military M19 9mm pistol. Accurate out of the box, this workhorse features an open slide design that virtually eliminates jamming, a safety system that combines decocking with a positive thumb safety, and a combat muzzle crown. Beretta's proprietary black, non-glare Bruniton finish gives your 92FS a wear-resistant coating, which means it will stand up to any special duty.

"I WAS ON A RECOVERY MISSION LAST YEAR IN THE SADR CITY DISTRICT OF BAGHDAD TRYING TO RECOVER AN M1A1 TANK THAT WAS HIT BY INSURGENTS. IN THE PROCESS OF CONDUCTING THE MISSION, MY TANK COMMANDER WAS INJURED, LEAVING ME IN COMMAND OF MY TANK. WITH NO SUPPORT ON MY FLANKS, I WAS PRETTY EXPOSED. A GROUP OF IRAQIS BEGAN TO CONVERGE ON MY TANK, GESTURING FOR AN RPG TEAM. WITH NO ROOM TO TRAVERSE MY TURRET, I STOOD UP IN MY HATCH AND SUPPRESSED THE GROUP BY DISPERSING THEM WITH MY M-9. IF THEY HAD GOTTEN THAT SHOT OFF AT MY FLANK, I MAY NOT BE HERE TODAY. THANKS, BERETTA, FOR A GREAT PRODUCT AND SUPPORTING MY PLATOON."

— Staff Sergeant, Michael Blake, U.S. Army

THE PISTOL SHOOTER

M9A1

M9A1 JS92M9AIM

Whether for competitive shooting or personal defense, the Beretta M9A1 offers powerful performance, total reliability and the confidence that comes from a pistol that meets the demanding requirements of the United States Marine Corps. Evolved from the base design of the battle-tested and proven M9 pistol, with input from military and law enforcement agencies throughout the world, this tactical version features an aggressive grip and a new PVD-coated magazine designed to function in every environment and every operating condition. Like peacekeeping forces around the world, you can put your trust in this pistol.

The M9 has successfully served America's armed forces on far-flung battlefronts throughout the world—from the chaos of Mogadishu to the deserts of Iraq and the fire-swept streets of Baghdad. Countless soldiers, sailors, airmen and marines have stood guard to preserve the nation's freedom, protected by its accuracy and firepower. Beretta is honored to manufacture the M9, the standard sidearm for the U.S. Armed Forces, and its civilian counterpart, the 92FS—the most reliable and safest semiautomatic pistols ever made.

THE PISTOL SHOOTER
PX4 STORM

NEW

PX4 Storm

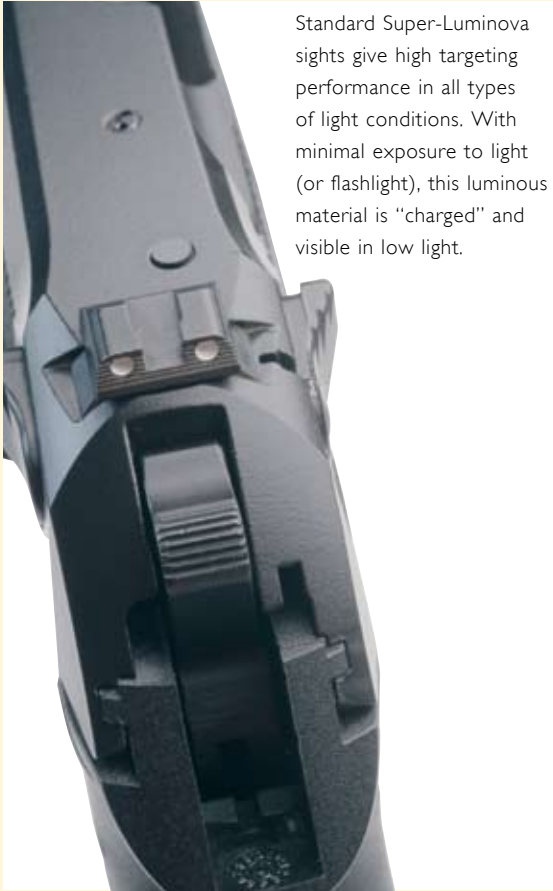

PX4 STORM JXF9F21

The Beretta Px4 Storm was built around the belief that a firearm should be individualized to the operator. The Px4 Storm includes multiple operating systems and a choice of three backstraps, three magazine release buttons, and two slide catch lever sizes. This is a gun you can make fit for your purposes. Extremely easy to disassemble without tools, the Px4 Storm personifies simplified field stripping: it cannot be reassembled incorrectly! Without compromising on Beretta's legendary ergonomics, reliability and performance, this lightweight technopolymer frame pistol defines *Individualized Performance*.

Interchangeable grip backstraps and multiple-sized, reversible magazine release buttons allow for customization to the individual's hand size.

CUSTOMIZE TO YOUR HAND AND SHOOTING STYLE
INDIVIDUALIZED PERFORMANCE.

Standard Super-Luminova sights give high targeting performance in all types of light conditions. With minimal exposure to light (or flashlight), this luminous material is “charged” and visible in low light.

Military Standard 1913 “Picatinny” standard accessory rail. Allows mounting of optional tactical lights and laser units.

“I AM A SINGLE FEMALE (MOM) AND JUST PURCHASED MY FIRST FIREARM FOR SELF-HOME PROTECTION. AFTER CONTEMPLATING SEVERAL COMPETITORS’ MODELS, I WENT WITH THE PX4 STORM, 9MM AND I AM SO GLAD THAT I DID. THE QUALITY OF BERETTA IS WHAT SOLD ME ON THE PISTOL. I ALSO LIKE THE FLEXIBILITY THE PX4 STORM OFFERS WITH DIFFERENT SIZED GRIPS TO MAKE A CUSTOM FIT TO MY HAND.”

CX4 STORM

CX4 Storm

CX4 STORM JX49210M

Accurate, easy to use, field strip and accessorize, the Cx4 Storm fits every need of the American pistol shooter. Today's shooter demands a gun that can accept a large assortment of accessories, and the Cx4 caters to all tastes. A retractable accessory rail extends from the fore-end for mounting tactical lights. Rails can be installed on either side or the bottom of the fore-end for lasers or forward grips. Redefining the pistol-caliber carbine, with racy and radical lines from the masters of industrial design at Giugiaro. The Cx4 Storm's smooth, sweeping curves are made possible by the use of modern high-strength, lightweight technopolymers.

Retractable fore-end rail for mounting of optional tactical lights and laser units.

INTRODUCING
THE WESTERN SHOOTER

The heritage of the Old West runs deep in the heart of the Western Shooter. The spin of the cylinder, the glint of the nickel barrel, the sheer thrill of breaking open a six-shooter or the adrenaline rush of firing a fast-handling, pump-action longarm. There's nothing that quite compares to that exhilarating moment when you feel the cowboy mystique running through your veins. To that moment when you test yourself, using those classic firearms that defined a fabled era, against the legends of the American frontier.

To the Western Shooter, authenticity is what matters above everything else. However, at Beretta authenticity does not detract from flawless performance. This is why you'll find an extraordinary combination of both in Beretta's lineup of Old West firearms. These fine firearms are for the Western Shooter who demands absolute truthfulness to the 19th-century originals as far as dimensions, feel and functioning, coupled with Beretta-style reliability, safety and performance.

THE WESTERN SHOOTER
GOLD RUSH

GOLD RUSH RIFLE JHA1B01

The Beretta Gold Rush Rifle follows the same philosophy as our successful Stampede revolver: combining the looks and feel of the Old West original with modern safety and reliability. Chambered for the 45LC and the 357 Mag/38 Special, the Gold Rush is a fast-handling pump-action longarm perfect for Cowboy Action Shooting, small-game hunting and informal target practice. Discrete modifications have been incorporated that greatly enhance safety and reliability.

GOLD RUSH CARBINE JHA1A03

Like the Gold Rush Rifle, the Gold Rush Carbine is a testament to authenticity coupled with modern performance. Compared to the original, several enhancements have been made. A solid transfer-bar safety mechanism is housed in the hammer, making the gun absolutely safe to load and unload without having to lower the hammer. Feeding is improved considerably by ensuring that each cartridge is perfectly in line with the chamber. And a redesigned cycling mechanism makes it possible to obtain the desired speeds without jams.

GOLD RUSH DELUXE JHB1A01

The Beretta Gold Rush Deluxe Rifle and Carbine exemplify the same high standards in engineering and performance as the Beretta Gold Rush and Carbine, with some important aesthetic differences. Features of the Gold Rush Deluxe include charcoal-blued barrels, jeweled hammer and trigger and German silver medallion inlaid into the stock. The Deluxe walnut stock and fore-end have special fish-scale checkering, oil finish and Beretta "three-arrow" logo engraved in the checkering pattern.

THE WESTERN SHOOTER
LARAMIE NICKEL

LARAMIE NICKEL JFB1501

The Laramie replicates a break-open revolver popular in the Old West for its quality, accuracy and for the speed at which it could be loaded and unloaded. Upon releasing the top latch located in front of the hammer, the revolver could be instantly unloaded by "breaking it open," thus allowing all six empty shells to fly out of the cylinder. Beretta has improved upon the 19th-century original by reinforcing the top latch, thus making the revolver much more durable and ensuring you years and years of trouble-free enjoyment.

An accurate reproduction, we made the Laramie considerably safer by designing a rebounding-hammer/hammer-block system that allows you to safely carry it with all six chambers loaded.

STAMPEDE NICKEL JEB1401

There’s no gun more quintessentially American than the single-action revolver. The Beretta Stampedeluxe combines the feel and handling qualities of the original “hogleg” with a transfer-bar safety system that makes it safe to carry with all six chambers loaded. The beauty is in the accurate details. The fixed front sight is true to the original. And with the frame dimensions closely matched to the 19th-century originals, the Stampedeluxe feels slender and very responsive in the hand.

STAMPEDE DELUXE JEC1401

The Stampedeluxe Deluxe features a frame finished in Beretta Color-Case, which duplicates the classic look of color-casehardening to capture the romance of the Old West. Select walnut grips and a lustrous charcoal-blued barrel and cylinder complete the picture. Whatever your choice, the transfer-bar safety system will allow you to safely load all six chambers without fearing an accidental discharge.

THE WESTERN SHOOTER
STAMPEDE SERIES

STAMPEDE MARSHALL JEE1403

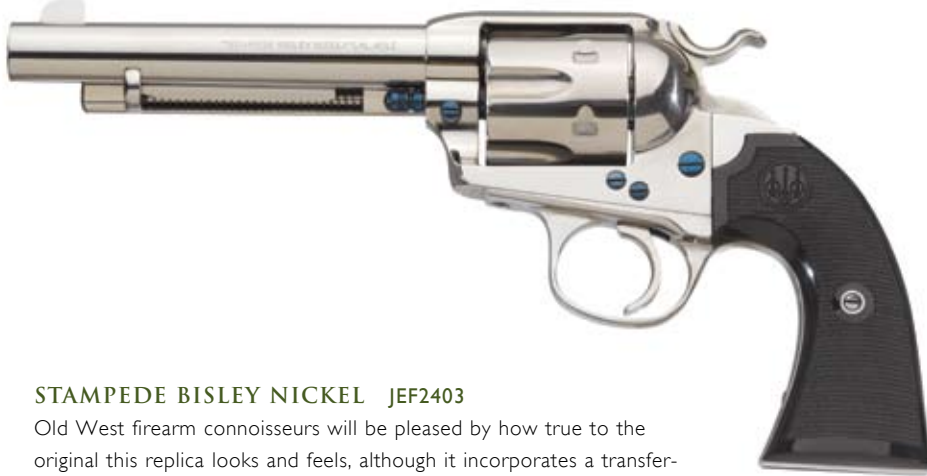

The internal features may be the same as Beretta's other single-action Stampedes, but the walnut birdhead grip gives the Marshall a distinction all its own. Chambered in .45 Colt and .357 Mag, this handsome replica has a 3½-inch blued barrel and cylinder, Beretta Color-Case frame and incorporates the most modern safety features. The feel and functioning are just like the originals, with a multiple-click single-action hammer mechanism and a half-cock position that allows the cylinder to spin free.

STAMPEDE BISLEY NICKEL JEF2403

Old West firearm connoisseurs will be pleased by how true to the original this replica looks and feels, although it incorporates a transfer-bar safety and is manufactured of durable modern materials. Instead of taking the easy road and "dressing up" this Stampede as a Bisley, Beretta built this revolver from the ground up around a true Bisley frame—which is somewhat taller than that on its standard single-action cousin. The distinctive Bisley grips in imitation Bakelite, hammer and wide trigger are also a precise replica of the originals as far as dimensions, balance and feel.

Classic three-position hammer and loading gate function.

INTRODUCING
THE 1526 COLLECTION

The sheer beauty is in every luxurious detail. From the rich baroque spirals hand chiseled by Master Engravers to the extraordinary cut of cloth and harmonious stitching found in the world's finest Italian apparel. Here there are no compromises; here only the very best will do. Every shotgun is created of hand-selected wood, hand engraved and hand fitted. Every article of clothing is fashioned from only the finest fabric in impeccable Italian design.

The 1526 Client is the collection that defines Beretta. That represents living at its very best. Not only is this the collection that the Beretta family is most hands-on involved with, this is the lifestyle the Berettas themselves live. This is their legacy; this is their passion. There is, quite simply, no finer example of Beretta's heritage of unflagging dedication to extraordinary performance and outstanding quality than in this collection, which is enveloped in the Italian sense of craftsmanship and style unrivaled worldwide.

THE 1526 COLLECTION
MEN'S APPAREL

ELEGANT ITALIAN STYLE,
LEGENDARY BERETTA
QUALITY

Not all things are made equal in this world. For those who appreciate the finer things in life, who see the beauty and value in the craftsman's attention to the smallest, hidden details...genuine leather buttons and trim...handpicked English wool and luxurious soft cashmere...field-tested fashions that honor the long tradition of the hunt...to you, only the very finest will do.

For the same reasons you cherish the master artisan's touch on a hand-chiseled shotgun, you treasure the handiwork that goes into the authentic, sophisticated clothing that immeasurably increases the pleasures of your pursuits.

This is time-tested hunting apparel that meets those unrelenting standards. The 1526 Collection is an extension of Beretta's passion and commitment to authenticity, timeless appeal, tradition and legendary quality. Welcome to the best of the best, to a world of luxury and quality without equal.

Subtlety reigns supreme in this discriminating collection. The red lining signals your impeccable taste, while the logo resides quietly in the jacket's interior.

THE 1526 COLLECTION
MEN'S APPAREL

Dressing in high style for the hunt was immortalized during the golden age of safari, but has been a centuries-long tradition for nobility. Silk ties and luxurious Viyella button-down shirts (made expressly for Beretta) add the finishing touches for the well-dressed sportsman.

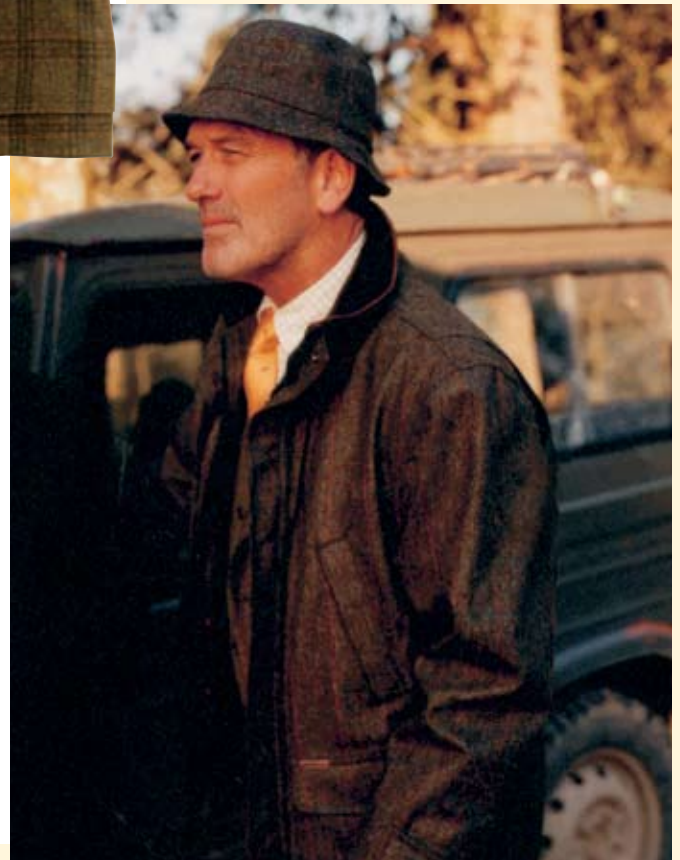

MADE IN ITALY

Home to exceptional fabrics, world-famous designers and a flair for style, Italian-designed clothing has been revered and sought after for centuries. Staying true to our heritage, the 1526 Collection is entirely designed and made in Italy.

The designs are timeless, as perfect for the hunt as they are for times of leisure. Beginning with only the finest hand-selected fabrics, the cloth is expertly cut, impeccably sewn and refined with the most exceptional and luxurious appointments.

Authentic hunting breeks, in pure wool with genuine leather details, are an essential element of the traditional hunter's wardrobe.

THE 1526 COLLECTION
MEN'S APPAREL

TAKE ON THE WORLD IN TIMELESS STYLE

This is clothing designed for the discriminating man, interested more in good taste, tradition and superior quality than the latest fashion trends. You are confident in your own style and recognize clothing that speaks to your lifestyle and expectations.

The 1526 Collection is the heart and soul of the Beretta family, part and parcel of their proud tradition over the centuries. They care deeply about the cut of the cloth, the unwavering sense of style and the unfailing performance precisely because this is the clothing that defines their lifestyle.

Their signature imprint is all over each of these luxurious articles, not in the form of a telltale logo, but in the masterful details that separate this collection from the rest of the world.

Fashion never gives way to practicality and comfort in the 1526 line of clothing. This is apparel designed for everyday use. These Italian-cut khaki jeans in supremely soft cotton, wear as well as they look. And they pair as comfortably with a blazer as they do with an outdoor coat.

THE 1526 COLLECTION
MEN'S APPAREL

Innovation and performance are blended seamlessly into Beretta's traditional hunt clothing. This practical mix between a coat and a blazer is characteristic of Beretta's style.

A COLLECTION OF
THE WORLD'S FINEST

As you travel the continents in search of the finest the world has to offer, you have come to understand that there is no substitute for those special qualities that embody what is truly extra lusso. Such quality, once found, is impossible to retreat from.

To take to the field with a custom shotgun created by master artisans and not dress for the occasion is unimaginable. The 1526 Collection represents the epitome of clothing for the hunt and for the sportsman who relishes life lived to its highest level.

Taking advantage of the latest technologies, this handsome wool blend jacket features a removable Thermore vest.

Every article has been fastidiously designed, thoroughly tested and found to be worthy of the Beretta family's personal stamp of approval. This is the world's finest—without compromise.

THE 1526 COLLECTION
WOMEN'S APPAREL

**LUXURIOUS FABRICS,
ENDURING ELEGANCE**

For the self-assured woman, with a sense of adventure and a sophisticated fashion sense, there are few places in this world to turn for clothing that is both elegant and functional. For those women, Beretta's 1526 Collection brings it all together in one place.

Here are exquisite Italian designs that are both timeless and flattering, fabrics that are both luxurious and intended for the outdoors, and quality that is rarely found at any price.

This is clothing not meant to set fashion, but rather to define and enhance the lifestyle of those whose sensibilities embrace style, grace, and a passion for tradition and excellence. Every stitch, every detail is imbued with legendary Beretta quality and the promise to be the very best.

The fashions that define the hunt also define the Beretta lifestyle. Classic in style, they capture elegance in every luxurious detail.

THE 1526 COLLECTION
WOMEN'S APPAREL

Luxuriously soft velvet from one of Italy's finest mills distinguishes these stylish outdoor jackets. A colorful foulard adds an elegant touch whether in the country or the city.

A PASSION FOR THE
EXTRAORDINARY

The 1526 Collection is a magnificent reflection of the Beretta tradition. A reminder that our proud heritage is inherent in all that we do. From the tradition of the hunt to idyllic weekends in the country, our apparel reflects our passion for the outdoor lifestyle and our unwavering commitment to offering only the very best.

From luxuriously soft cashmere scarves to premium wool blazers to genuine hand-tanned leathers, these fashions represent the finest fabrics, materials and fabrication available.

Though extraordinary in every way, this is clothing fashioned for everyday life, whether that takes place in the Tuscan countryside or the bustling streets of Manhattan. This is fashion that transcends the ordinary.

THE 1526 COLLECTION
WOMEN'S APPAREL

THE BEST OF BERETTA

There is no finer example of the gunmaker's art than Beretta's custom-made premium grade shotguns. They are masterpieces of ability, invention and artisan mastery. The same strong designs, fine materials, refined elegance and flawless performance are hallmarks of the 1526 Collection.

This is the best of Beretta. Premium clothing and accessories for the woman whose fashion sense is dictated by her love of the finer things in life.

Genuine leather buttons and details accent this premium wool blend blazer designed and made in Italy.

THE 1526 COLLECTION
WOMEN'S APPAREL

Style meets function in this quilted coat and vest fashioned with a lightweight blend of rip-stop steel fiber and tough Cordura.

FROM ITALY TO YOU

Revered around the world for their inimitable and passionate style, Italian designers are at the forefront of the fashion world. Steeped in this rich tradition, Beretta has fashioned its 1526 Collection entirely at the hands of its Italian stylists.

Beretta's respect for tradition and thirst for technological innovation produces clothing that lends a touch of classic elegance to your outdoor adventures while discretely incorporating the latest technologies and fibers.

THE 1526 COLLECTION

SO10 EELL

SO10 EELL

Seventy years after the first modern Beretta over-and-under (the S1 launched in 1933), a new true sidelock shotgun is born: the SO10 EELL over-and-under. It is the deserving successor of the famous Beretta SO series hunting and competition shotguns that have earned their reputation, on the Olympic podium and on the most exclusive hunts in the world, from Europe to America to Africa, for being the most functional, elegant and exclusive over-and-under in the world. Drawing from this very long experience, and under the dedicated guidance of the Beretta family, the most gifted designers and gunsmiths of the company have created the new SO10 EELL, a synthesis of aesthetic refinement, function and performance that place it at the peak of the world's prestigious over-and-under offerings.

In Italian, EL stands for extra lusso (extra luxury). The prized double "E" double "L" designation takes that quality to the highest level of luxury.

MASTER ENGRAVER, MARIO TERZI

ELEGANCE AND CARE

Entirely hand executed by expert craftsmen, the Beretta SO10 EELL over-and-under case is made of solid wood covered in resistant leather. A full range of handmade cleaning and maintenance accessories is provided. Type and color of leather, wood, finishing and accessories vary depending on the model.

THE 1526 COLLECTION
IMPERIALE MONTECARLO

IMPERIALE MONTECARLO

A shining example of what can be achieved when free reign is given to Master Gunsmiths in the crafting of personalized luxurious shotguns and when Master Engravers are able to express their artistry in full, the Imperiale Montecarlo is a masterpiece destined to become a part of gunmaking history. The deeply blued Demiblock barrels of the Imperiale Montecarlo side-by-side boast numerous, exclusive qualities that have determined its fame as a great hunting and competition gun. They begin with the special steel that assures extremely high resistance and outstanding tensile strength and conclude with the exclusive cold blueing of the barrels that give them an extraordinary deep glossy black color. The final result will astonish even the most refined connoisseur.

THE 1526 COLLECTION
SO6 EELL, SO5 & DT10 EELL

SO6 EELL

Embellished with the finest hand engraving proudly signed by the author, the SO6 EELL Premium Grade sidelock shotgun is sought after by connoisseurs who desire to be one of the few to own such a masterpiece. Pick one up and you know it is special—each of its elegant details, from the sophisticated engravings to the gold-inlaid animals to the dimensions of the walnut briar stock and receiver, is executed to suit the personal tastes and requirements of its owner. The Master Gunsmiths' handiwork is evident everywhere, from the hand-cut deep diamond checkering to the hand-file cut ventilated rib. Prized for their beauty and uniqueness, each SO6 EELL is built to perform to the highest standards decade after decade, generation after generation.

SO5

With numerous gold medals in the Olympics and other prestigious international competitions, the best shooters in the world consider the SO5 over-and-under the finest competition shotgun ever made. The SO5 is handcrafted to meet the requirements of every shooting discipline and can be further personalized for peak performance. This elegant champion's sleek profile enhances swing and pointability. Its sideplates are beautifully hand engraved and the trigger plate is embellished with a 24-carat fine gold inlay of the "P. Beretta" signature on the coin silver finish.

DT10 EELL

Competitors feel a special admiration for the shotgun that accompanies them to the podium. Since the beginning of international competition, Beretta has accompanied more medalists than any other brand of shotgun. The DT10 Trident EELL over-and-under was developed for discerning shooters, rolling performance and elegance into a truly durable, secure investment. The perfectly coupled components and the elegant, fully engraved, hand-finished receiver put this shotgun into the exclusive category of a Beretta Premium Grade.

THE 1526 COLLECTION
GIUBILEO SERIES

GIUBILEO

The splendid Giubileo over-and-under Beretta, made in 12, 20, 28 and .410-gauge models, is distinguished by rich, baroque spiral and floral engravings on the receiver and sideplates, and by its exquisitely proportioned construction. There are no screws on the plates, allowing the Master Engravers to express their artistry in full, while the internal surfaces and mechanisms are impeccably polished. The elongated trigger guard, the safety and top lever are also completely engraved. The stock and fore-end, made from the highest quality walnut, are finely checkered. The antique shield—displaying P.B. in 24-carat gold—is encased within the fore-end. A sturdy ABS leather carrying case with accessories is also provided.

GIUBILEO II

Almost five centuries of tradition have produced the elegant lines, rich engravings, innovative technology and superior durability of the side-by-side Giubileo II, masterfully crafted in 12 and 20 gauge. The receiver features side panels that cleverly hide hinges and hinge pins and are applied without screws, providing Master Engravers more surface area to create beautiful spiral and floral designs. The top moldings of the receiver, coined in relief, make this wonderful side-by-side even more slender and elegant. The extended trigger guard, wisely encased within the grip, and the oriented screws immediately show Beretta's care and attention to the finer details of this excellent shotgun.

THE 1526 COLLECTION
455 EXPRESS & SS06 EXPRESS

455 EXPRESS EELL

In designing the 455 Express EELL, Beretta left nothing to chance in ensuring the absolute mechanical and engineering integrity required to handle the specialized loads mandatory for stalking dangerous game—like the receiver made of special high-strength steel and forged with an elongated 60mm plate to compensate for stress when shooting. Or the reinforced receiver sides that can withstand the tremendous pressure of high-powered cartridges. With the highly detailed game scene engraving and intricate scrolling, this makes for one superbly finished rifle.

SS06 EXPRESS EELL

For dedicated big game hunters worldwide, a Beretta SS06 Express EELL rifle in the hand means a trophy on the wall. This is no ordinary firearm. The SS06 Express EELL delivers a potent combination of ultra-strong receivers and carefully crafted barrels to comfortably handle today's powerful ballistics with remarkable accuracy. Hand-finished, hand-checked stocks and fore-ends from selected walnut or walnut briar and a color-casehardened receiver sporting a 24-carat gold inlaid animal add masterful touches to this magnificent rifle.

HOW TO PURCHASE A BERETTA PREMIUM SHOTGUN

Beretta's premium grade shotguns are masterpieces of the gunmaker's art. They are built entirely by hand by master craftsmen using time-honored techniques that have been jealously handed down through the centuries, which is why Beretta is extremely discriminating about where its premium shotguns are sold.

Premium dealers are chosen from among the very best Beretta dealers. These are the specialists to whom Beretta entrusts your custom-made shotgun experience with complete confidence. These dealers are not just well versed in the art of gunmaking, they have the love of shotguns and shooting sports running through their veins. In their hands, you can be sure to find true Beretta premium firearms, backed by Beretta's legendary passion for quality.

In the United States, Beretta premium firearms are sold only through these premium dealers:
