As part of our commitment to bring you the best products possible, Savage Sports Corporation reserves the right to change materials and/or specifications without notification.

Dear Valued Customer,

Savage Sports Corporation (SSC) is pleased to continue to serve the hunting and shooting community with superior firearms, ranges and accessories. As a private and locally owned company, SSC delineates its product offerings according to markets and consumer expectations. We offer more "custom" features at regular factory prices than any other firearms company in our industry and we strive to offer the best for less, providing superior products at all price-points.

Of our four brands, SAVAGE ARMS is acknowledged as the shooting industry's accuracy standard, STEVENS denotes the best value money can buy, FOX is a brand that represents classic American quality, while SNAIL offers the world's best shooting range technology.

This year, we're proud to offer you what you asked for — the addition of our revolutionary AccuTrigger™ to all of our Savage rimfire bolt action product line. And, as you review our catalog, you'll notice we are continuing to push the design/material envelope in every direction. We extensively test new products at the factory level and in the field to insure long-term "fitness for use" and each successive year, we further fine-tune to make sure they are improving and evolving in step with changing market expectations. As hunters and shooters ourselves, we listen to your suggestions and develop our products to satisfy those needs. We hope that you agree.

Thank you for making Savage Sports Corporation the best in the industry. We care about your satisfaction and appreciate that when you want the best, you choose Savage. We continue to look forward to your letters and website surveys — they keep us focused and in touch with your shooting objectives.

For Savage Sports Corporation,

Ronald Coburn Chairman & CEO

- Capable of being adjusted by the owner
- Trigger pull weight varies by model from 1-½ to 6 lbs.
- Completely safe no danger of accidental discharge even at the lowest setting
- Crisp release with no creep

The Savage Centerfire AccuTrigger™ has a single adjustment location

The New Savage AccuTrigger™

A revolutionary design that will forever change the way shooters expect triggers to function.

Why Savage Developed The AccuTrigger

At Savage, we're constantly searching for new products and innovations that provide a true benefit to shooters. The trigger was always one significant area that captured our attention.

Most triggers found in firearms produced today have a very heavy pull. The reason is quite simple... liability. Manufacturers cannot afford to ship firearms with triggers that could accidentally discharge; therefore, they design firearms with heavy trigger pulls. Even though factory triggers can usually be adjusted, any adjustments made to factory triggers can create an unsafe condition and usually void the warranty.

Savage challenged its engineering team to design a completely new trigger system to give shooters what they wanted—an easily adjustable trigger with a crisp release and no creep. It took several years, but Savage's revolutionary AccuTrigger meets every shooter's objective.

How AccuTrigger Benefits The Shooter Adjustability and added safety are the first benefits.

The Savage AccuTrigger gives the shooter flexibility to set trigger pull to individual preference without having to pay a gunsmith to adjust it. Also, even when adjusted to its lowest setting, the AccuTrigger is completely safe and cannot accidentally discharge during normal use from being jarred or dropped when maintained and adjusted as intended. A newly designed teardrop safety is an additional feature on centerfire rifles with the AccuTrigger. It provides for better acquisition of the safety button and operates smoother and quieter.

Enhanced accuracy is another benefit of the Savage AccuTrigger

The crisp, clean, light trigger pull allows the shooter to maximize the accuracy potential of the rifle.

 ${\bf AccuTrigger\ and\ AccuRelease\ are\ trademarks\ of\ Savage\ Sports\ Corporation.\ US\ Pat.\ No.\ 6,553,706}$

How Does The AccuTrigger Work

The AccuTrigger is designed with an integrated AccuRelease™ that must be completely depressed or the rifle cannot fire. While pulling the trigger, the AccuRelease is intentionally depressed, which unblocks the sear and allows the rifle to discharge.

Adjusting The AccuTrigger

Adjustment of the AccuTrigger is easy. Simply remove the stock and rotate the return spring with the tool supplied with the rifle. The AccuTrigger has a single adjustment location and is designed so it cannot be adjusted below the minimum setting.

What Models Feature The AccuTrigger

The AccuTrigger is available in all 12 Series Varmint, Law Enforcement, Muzzleloaders, the Model 40 Varmint Hunter, most centerfire hunting models, and all Savage bolt action rimfire models including the Package Series. The adjustability varies depending on the model.

In centerfire hunting models, muzzleloaders, the Model 40 Varmint Hunter, and bolt action Rimfire, the AccuTrigger is adjustable from approximately 2-½ to 6 lbs. In the 12 Series Varmint and Law Enforcement Series, the AccuTrigger is adjustable from approximately 1-½ lbs. to 6 lbs.

Comparing The AccuTrigger To The Competition

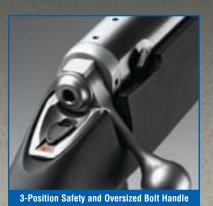

Savage used sophisticated software to compare objective measurements of their new AccuTrigger with competitors' triggers. These comparisons confirmed there is a graphic and repeatable difference between the AccuTrigger and all other triggers tested. This objective method of testing demonstrated the new Savage system has a lighter pull than all the other major brands. In fact, the AccuTrigger was lighter than a top-of-the-line imported brand and a custom aftermarket trigger. Testing also revealed the AccuTrigger was much smoother, crisper, broke cleaner and demonstrated less creep than any other factory-built trigger tested.

See and use the future of the industry—the Savage AccuTrigger—the system that makes all others obsolete.

12 Series Varmint

Accuracy Defined • The widely acclaimed varmint series from Savage continues to define everything you've come to expect about varmint-grade accuracy. With features like the revolutionary AccuTrigger™ — allowing you to easily adjust trigger pull weight from approximately 1½ to 6 pounds — button-rifled, free-floating barrels and dual pillar bedded stocks, this series establishes the standard and continues to raise the bar for factory produced rifles. And, the newest rifle in the series, the model 12 Long Range Precision Varminter, not only defines accuracy, it sets a new standard in long range shooting. The very best in the Savage line, it features an extra heavy 1" diameter barrel, and a smaller ejection port that gives more rigidity to the receiver and enhances the accuracy for more precise shooting. The right bolt, left port also makes it easier to reload with your free hand. Add this to the aluminum bedding block chassis system in H-S Precision's Varmint stock, and no matter what the distance, those varmints don't stand a chance! It's the perfect addition to the widely acclaimed 12 Series Varmint Rifles and another example of why our rifles are recognized as "The Definition of Accuracy."

All Savage rifles with the new AccuTrigger™ feature a newly designed teardrop 3-position safety that provides better acquisition of the safety button and operates smoother and quieter. The bolt handle is oversized for quick acquisition when multiple shots are required.

Smaller ejection port gives more rigidity to the receiver for enhanced accuracy, and the right bolt, left port makes it easier to reload with your free hand.

40 Varmint Series

Value-Minded Varmint Shooting • Throw out the old notion that varmint-grade accuracy means a high price. The Model 40 Varmint Hunter makes it easier than ever to try your hand at the sport. Made for the value-minded shooter, this single shot model is big on features too. The 24" free-floating, heavy barrel with a recessed target crown is button rifled to enhance accuracy — and the barrel's finish is polished to a deep, high luster blue. The easy to adjust AccuTrigger™ is standard, and the varmint style laminated stock with full beavertail, provides that extra stability you need when shooting from a bench or sand bags. There's even a third swivel stud for use with a bipod. Chambered in 22 Hornet, this rifle offers pin-point accuracy at a price you can definitely afford.

Weather Warrior Series

Weather Warrior features a stainless steel action and barrel for maximum corrosion resistance. The synthetic stock is impervious to moisture and dual pillar bedded to enhance the accuracy of the barreled action. It's the perfect rifle to handle the unpredictability of Mother Nature when out in the field. Our new sporter barrel model features our patented adjustable muzzlebrake which reduces felt recoil by 30 percent. And, our new feeding system — with a straight-line feed for more reliability — is now offered in both hinged floorplate and detachable box. When you head out into the woods, let Mother Nature dish it out, this weather-tough series can handle it all.

for more reliability.

Turn it closed to reduce muzzle blast.

Adjustable Muzzle Brake US Pat. No. 5,425,298

209 Primer Ignition

For ease of use and a sure-fire seal, the 209 primer fits into a primer carrier in front of the bolt face.

Muzzleloading Without the Mess

You choose the propellant. Modern smokeless powder for maximum performance or traditional black powder, Pyrodex or other black powder substitutes.

Accessory Kit

Accessory Kit contains: 5 Powder Vials, 2 Vent Liners, Vent Liner Pick, Powder Dippers, 20 Hornady Bullets, 20 MMP Sabots (packed with bullets), Gun Cleaning Patches, TW25 B High Tech Lube, .50 Cal. Cotton Bore Mop, and .50 Cal. Bronze Bore Brush.

Demand the Very Best • Savage was the first manufacturer to offer you flexibility in a muzzleloader. Designed to shoot smokeless powder, this 50 caliber muzzleloader with 209 Primer ignition, was made to handle the pressure. Choose to shoot black powder, Pyrodex, Triple Seven, or any other black powder substitute and you'll experience excellent performance. Choose smokeless powder however, and once you come back from a day in the field, you simply put the muzzleloader in its case — no cleaning required. With features like the revolutionary AccuTrigger™, this muzzleloader is capable of exceeding velocities of 2,300 fps and can deliver 1½ inch groups at 100 yards. Choose a package model with scope, a stainless or blued action and take your pick of stocks. With more than 3,000 foot pounds of knock-down energy, the Savage 10ML makes muzzleloading clean, safe, and simple. It's the muzzleloader of choice when you demand the very best.

Never transport a loaded firearm.

The Classic Series

A Reflection of the Gun Maker's Art • The Classic Series. The finest in the Savage line, yet reasonably priced too. Where else can you get a rifle with a stock crafted from American walnut with features like wrap around checkering, a free-floating barrel, and the easily adjustable AccuTrigger™ without breaking the bank? Both new models in this series, the Classic and the Euro Classic, feature stocks with a Monte Carlo comb and cheekpiece and offer our new feeding system with straight line feed for more reliability every time. The Classic, with new hinged floorplate, offers a stock finished in satin lacquer. And, for those who prefer a detachable box magazine, our new Euro Classic features a stock with a traditional oil finish. Just like the American Classic, introduced last year, all barreled actions in this series are polished to a deep, rich high luster blue and offer a level of performance rarely found in a factory bolt action rifle. Whichever you choose, all the rifles in this series are a true reflection of the gun maker's art.

Monte Carlo comb with cheekpiece.

Free-Floating Barrel

The American Classic Rifle features a detailed, brass Indian head medallion.

Savage's new detachable box magazine is a smoother design with a straight-line feed for more reliability.

Hunter Series

Legendary, Timeless, and Accurate • The legendary Savage 110 action is widely acclaimed as the best in the industry and the foundation of every Savage centerfire rifle manufactured today. Each rifle in the Hunter Series is one that's chosen season-after-season, by hunters of all ages, for its out-of-the-box accuracy, its unfailing reliability and exceptional value. Add that to the best, easily adjustable trigger in the industry — the AccuTrigger™— and you have a rifle that cannot be beat. Available in a variety of calibers, stock choices, and magazine choices as well. Choose from blind magazine, detachable box, or new for 2006, hinged floorplate. Our new youth model with adjustable muzzlebrake tames recoil by 30 percent and is perfect for women too. We also offer four models for those of you who are left-handed. No matter what you prefer, this legendary, timeless and accurate series is all about the options.

actions are almost a full inch shorter and provide a

cartridges through the .300 Win Mag.

lighter more compact action for all of today's shorter

open and reduce felt recoil by 30%. Hunting

in the deep woods with a guide at your side?

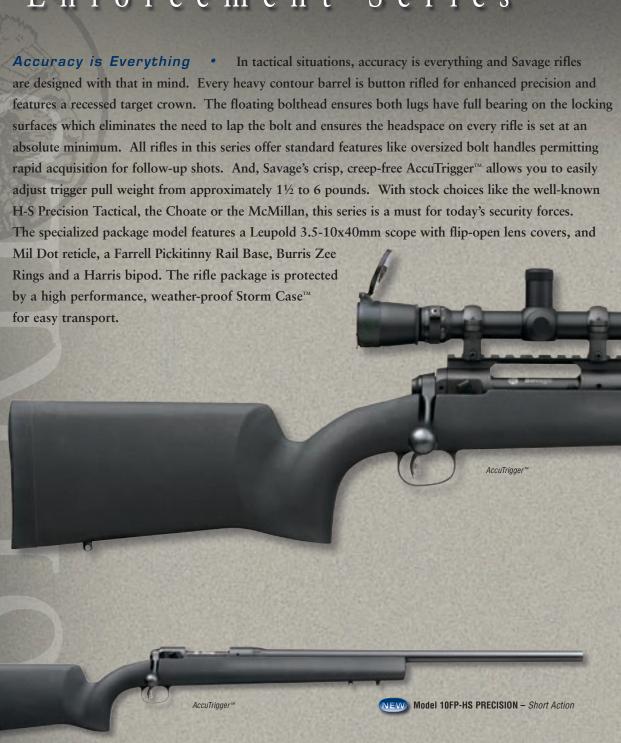

Turn it closed to reduce muzzle blast.

Eliminate the Guesswork • Let us take all the guesswork out of buying a rifle, scope, bases, rings and a sling — just choose a Savage package model. We've done all the work for you and wrapped it up in a nice, very affordable package. All you have to do is a final sight-in with your chosen ammo and you're ready to go hunting! Whether you're looking for a stainless or blued, short or long action, right or left-handed model, with a wood or synthetic stock, there's a package to fit every need. Chambered in popular calibers like the 243, 270 and 30-06, standard models are fitted with a 3-9x40 scope, and all internal magazine models come with Savage's revolutionary AccuTrigger™. Ready to go, right out of the box, Savage Package rifles are an unbeatable combination of value and convenience. It's what we like to call, "A No Brainer."

Law Enforcement Series

*Oversized bolt handle not available on this model.

Specialty Series

Versatility and Performance • No matter what the environment, the Savage turkey gun, the model 210FT, is the perfect choice for turkey hunters. Dedicated hunters truly appreciate the quality and innovation Savage brings to the world of bolt action shotgun performance and this durable 12 gauge offers a 24" smooth bore, blued barrel with choke tube and a camo synthetic stock. It's the perfect choice for matching wits with a Tom.

Giving a traditional European idea an all-American twist, the model 24F from Savage remains a true combination gun — offering rifle and shotgun capabilities with a simple change of the barrel selector. Unique to the hunting scene, this model has become a classic in the hands of American hunters for generations. Whatever the requirements, you'll be ready with the versatile model 24F!

Want the finest slug shotgun on the market today? Look no further than the model 210F Slug Warrior. A classic design, this 12 gauge 3" chambered shotgun is a slug gun with all the accuracy and reliability you'd expect in a Savage rifle. This highly specialized bolt action shotgun shows the world what slug gun hunting can be, at its very best.

Semi-Automatic Rimfire Series

From Casual Plinking to Small Game Hunting • Rimfire rifles in 22 LR are accurate, fun to shoot, and economical too. Savage has known this for over a century and continues to improve and expand on this great rifle series. Whether plinking for fun, serious marksmanship practice or just the magic moment when a youngster takes his first shot, you can count on a Savage 22 semi-auto. This proven line of value-packed rifles is available in blue or stainless, with wood or synthetic stocks. Every member of the Model 64 family comes equipped with a smooth-feeding detachable 10-round magazine. From casual plinking to small game hunting, this versatile line of Savage Model 64 rimfire rifles can handle it all.

Rimfire Package Series

The Complete Package • The package model. It's a concept we invented here at Savage. With rifle, scope, rings and bases, we've done all the work to provide you with "the complete package." Add our revolutionary AccuTrigger™ to that, and what you have is a package that offers unbeatable value. The AccuTrigger not only gives you the benefit of adjustability, it also provides you with the added benefit of safety. No matter what the situation, from plinking to hunting, just knowing that the AccuTrigger is completely safe and cannot accidentally discharge during normal use from being jarred or dropped, make it the perfect rifle that's economical to shoot. All models in this series are now mounted and boresighted so all you have to do is take it out of the box and sight it in. It's ready to go when you are.

Magnum Rimfire Series

For Economical Plinking or the Smallest Game

Now featuring the revolutionary AccuTrigger™, Savage offers the widest selection of 22 magnum rifles available—one for every shooting situation. The modern hunter will like the looks of the model 93FVSS, which combines a receiver and heavy target barrel, both made of stainless steel, with a synthetic stock that can shrug off any weather. Or, the new model 93FV with blued heavy barrel is perfect for hunting small game. Whatever model you choose in this series, the Savage AccuTrigger gives you a crisp, clean trigger that adjusts down to approximately 2½ pounds. And, with the added safety of the AccuTrigger you don't have to worry about accidental discharge, even at the lowest setting. For economical plinking or the smallest game, the Magnum Rimfire Series from Savage will exceed all your expectations.

Single Shot Rimfire Series

shooters who have learned what fun, safe shooting is with a Savage 22. Now featuring the AccuTrigger™, the single shot bolt action offers fundamental safety with one-round-at-a-time shooting. It's the perfect rifle for beginners with the added safety benefit of the AccuTrigger. Even at the lowest setting, the AccuTrigger can not accidentally discharge from being jarred or dropped when maintained and adjusted as intended. For the youngest shooter, the Cub, our mini youth model, is a scaled-down conventional bolt action rifle and features a target-style peep sight to help perfect every shot. The Stevens Favorite, a traditional falling block model,

Easy on the Budget • The Mark II line from Savage offers target-grade rifle accuracy in a wide range of choices — all with our revolutionary AccuTrigger™ as a standard feature. With the AccuTrigger, you can easily adjust trigger pull yourself, no need to pay a gunsmith to adjust it. And, the AccuTrigger has a crisp release with no creep, enhancing the accuracy and helping to ensure you don't miss on your next shot! From heavy barrels for long range shooting, to versions for the oft-forgotten left-hander, the Mark II series features stock choices in camo, black synthetic, or the traditional look of a wooden stock with Monte Carlo comb. With stainless or blued barrels, peep sights or fiber optic sights, whatever you need in a bolt action 22 repeater, this series offers it all without beating up your budget.

24 www.savagearms.com

Bringing a Whole New Element of Fun to Rimfire Shooting • Fun to shoot. These are the words we so often hear about our 17 series of bolt action rimfire. Offering rifles in either 17HMR or 17 Mach 2, this popular series has earned its place in the Savage line. No other manufacturer offers the variety and choices in these popular calibers. From the heavy barrel varmint to the sporter barrel models, these bolt action rifles come in almost every configuration: laminated, camo, synthetic or wood stocks, blue or stainless action. Our newest model to the line, the 93R17-BTVS, gives you a laminated, vented, thumbhole stock with a heavy stainless barrel. Or, if a more traditional look is your preference, you might choose the new 93R17BV with high luster blued finish and varmint-style laminated stock. Every model in this series, now with the added adjustability and safety of the AccuTrigger™, provides tack-driving accuracy powerful enough for dispatching small game and varmints. Best of all, you can shoot box-after-box of this ammo without shooting a hole in your budget. Whatever you choose — the 2,550 fps of the 17HMR caliber or the laser-like trajectory of the 17 Mach 2 — every rifle in this series offers unrivaled variety and brings a whole new element of fun to rimfire shooting.

STEVENS

Insist Upon the Best Value Available • Reliability, accuracy, and value — qualities which have long been associated with the Stevens name. From the first rifle ever manufactured, Stevens has built a reputation of designing a rifle to meet the requirements of hunters and riflemen who are particular about their equipment and insist upon the best value available. All barrels are button rifled with painstaking precision by gun makers trained in the Stevens tradition. And, each rifle in the Stevens line is carefully gauged and inspected during the manufacturing process. The model 200 features a dual pillar bedded, gray synthetic stock and is offered in a variety of calibers. Our new rimfire selection gives you many choices — from the single shot 22, to the popular tack-driving 17 HMR. There's even a mini youth model, perfect for the beginner, and a package model complete with scope. From centerfire to rimfire, any Stevens rifle you select carries the spirit of fine workmanship and honest value. It's the perfect rifle at a reasonable price.

Savage Merchandise Online

werchandise direct at www.savagearms.com! Purchase hats, soft gun cases, leather slings (with bonus key chain) and more — all with our logo—along with exclusive, online only products like the Savage Arms knife, Hunter's Edge.

Designed by Savage, the Hunter's Edge is a quick-change, multiple-blade knife that offers four separate blades for four distinct purposes — a drop-point blade, a gut-hook blade, a saw blade and a filet. The Savage leather sling, made by DeSantis Leather, comes in either brown or black and is embossed with the Savage Indian Head.

All hats are made in the USA and feature the embroidered Savage logo on the front and "The Definition of Accuracy" on the back. Check out the entire selection online, featuring the quality and prices
