

Remington®

2007 SEASONAL PRODUCTS GUIDE

MODEL 1100™ G3

AUTOLOADER

THE MOST TRUSTED
IN HISTORY,
ENGINEERED FOR THE FUTURE.

Soft recoil, dependability, balanced pointing characteristics – the Model 1100™ G3 is all that made the original Model 1100 America's most trusted semi-auto shotgun, only better.

Available in 12 and 20 gauge, its improved, technologically advanced gas system cycles 2 3/4" and 3" magnum loads with equal efficiency. By coating key internal parts with Teflon®, we've created an action that's easier to clean, smoother and more reliable. The Titanium PVD-coated receiver adds durability and a great new look. Then there's Realwood™ our exclusive high-grade walnut construction that meshes the woods with carbon reinforcements for striking looks that will withstand extreme abuse.

No autoloader has folded more birds or crushed more targets than the venerable Model 1100. We're proud to announce the legacy has advanced – welcome the next generation, the Model 1100 G3.

COMPETITION

SHOTGUNS

CONFIDENCE
IS OFFICIALLY TANGIBLE.

There's no firearm better equipped for the high-volume regimen of today's elite shooters than the Model 1100™ Competition. Whether you're a seasoned pro or a weekend enthusiast, this shotgun will truly put you at the top of your game.

By overboring the 30" barrel, we improved shot-to-shot pattern consistency and made what was one of the softest-recoiling actions in the world even easier on your shoulder. The receiver and all internal parts feature a nickel-Teflon® finish for the smoothest, most reliable cycling ever. It's optimized for 2 3/4" target loads and light field loads. And with an optional adjustable comb, you can fine-tune the stock to your mount. The barrel has 10mm target-style rib. All these, plus a host of other upgrades transform an already legendary design into a super-tuned machine for the competitive scene.

The Model 1100™ Tournament Skeet is still setting records. This quick, smooth-swinging semi has a 26" barrel, and is available in both 12- and 20-gauge versions. Our Model 1100 Sporting Series offers discriminating shooters 12, 20, 28 and 410 options. The guns that started it all, the Model 1100 Classic Trap and famous Model 870™ Classic Trap, continue to crush their way to the top of major events every year.

MODEL 1100™ COMPETITION

MODEL 1100™ G3

MODEL 1100™ G3
12 gauge

Remington® Realwood™ construction. This Remington-exclusive process bonds two pieces of solid, semi-fancy American walnut with a carbon reinforcement to produce an amazing blend of strength, durability and stunning good looks.

PREMIER® STS® OVER & UNDER

A CRUSHING DEVELOPMENT.

Developed using input from professional shooters worldwide, our 12-gauge Premier® STS® Series Competition Over and Under is quickly grinding its way to the top of the competitive scene. Superbly balanced with a sleek, low-profile receiver and built rock-solid, it's taking command of sporting clays, trap and skeet fields everywhere.

Every facet of its design is optimized to excel in high-speed, high-volume shooting sports arenas. The barrels are overbored (0.735") with lengthened forcing cones to enhance pattern consistency and lessen felt recoil. For ultra-smooth operation and long-term protection from heat and wear, we added an electroless nickel-plated receiver. A 10mm target-style rib with ivory front bead and steel midpost aid in target acquisition. We even fine-tuned the point of impact using input from professional target shooters. A set of five ProBore™ choke tubes with knurled extensions helps you quickly adapt to changing conditions and courses.

For added comfort, there's a right-hand palm swell, and the lustrous gloss wood finish is complemented by a gold trigger and engraved receiver. Other features include a target-Schnabeled fore-end and premium hard case. Barrels are offered in both 28" and 30" lengths. At Remington, we don't stay the course, we master it. A few rounds through the Premier STS Competition will be all the proof you need.

MODEL SPR310™ & SPR100™

JUST THE BREAK YOU'VE BEEN LOOKING FOR.

A solid, dependable break-action shotgun should be part of every target shooter's arsenal. When they're priced like this, we'd recommend two. Two in particular. Our SPR Over and Unders have superb balance, a natural point and an impressive list of features you'll find on much more expensive guns. The Sporting model has a single selective trigger, auto selective ejectors, richly blued chrome-lined barrels, checkered walnut stock and fore-end, and more.

SPR 100 Single Shots are rugged, smooth-handling shotguns we produce for a modest price while maintaining our strict standards for performance. Three models: Sporting/Trap, Youth Vent Rib and the MAX Nickel .410.

MODEL SP-10™ SPECIAL PURPOSE

A PERFECT 10.

It's America's most popular 10 gauge for a reason. A smooth operator, the Model SP-10™ features a corrosion-resistant gas system, in which the cylinder — not the piston — moves, helping soften the recoil. Built to excel in extreme conditions, the Model SP-10 delivers the ultimate 3 1/2" bird-leveling payload.

Reach out and bust a tom in grand fashion with our new Model SP-10™ Thumbhole Camo. Its thumbhole stock, adjustable Williams® fiber-optic Fire Sights™ and handy 23" barrel make it the ultimate gobbler stopper. It's also fully decked in Mossy Oak® Obsession™ camo.

Other models come equipped with 26" or 30" vent-rib Rem™ Choke barrels with twin beads and interchangeable Full and Modified Rem chokes. Choose Mossy Oak® Obsession™ or Satin finishes. All models feature R3® recoil pads with LimbSaver® technology for enhanced shooting comfort.

MODEL 11-87™ SUPER MAGNUM

PULL A SUPER MAG FAST ONE ON THAT OLD LONGBEARD.

Take thunderous command of the turkey woods with our 12-gauge Model 11-87™ Super Magnum™ Special Purpose Turkey Shotguns. The fast, reliable gas-operated actions will handle the most massive 2 3/4" magnum to 3 1/2" Super Magnum turkey loads on the market with flawless efficiency. Whether you prefer the traditional styling of the SPS-T™ or the Thumbhole Stock model with its added features, these shotguns are ready to go the distance. In fact, both models include Super-Full Turkey Rem™ Chokes to stretch your kill zone.

The SP-T™ Super Magnum Thumbhole's stock design offers exceptional stability and comfort, and even helps lessen felt recoil. It's equipped with adjustable Truglo® fiber-optic sights for long-range accuracy and enhanced visibility. Our SPS-T™ features twin beads. Both models have 23" barrels for quick handling and are fully decked in ultra-effective Mossy Oak® Obsession™ camouflage. Trust us, nothing can prepare that old gobbler for this team of heavy hitters.

MODEL 870™ SPECIAL PURPOSE TURKEY

**TAKING
SPECIALIZED
TURKEY SHOTGUNS
TO THE MAX.**

Maximum distance and accuracy inspire every model in our Special Purpose Turkey line, and our latest addition is an absolute masterpiece. Introducing the New 870™ Super Magnum™ MAX Gobbler. Its Knox® SpecOps™ pistol-grip stock has an adjustable length of pull and uses state-of-the-art recoil-dampening technology, including an R3® recoil pad with LimbSaver® technology, for the steadiest, most comfortable shot possible. Fast handling and precise shot placement are hallmarks of the 23" barrel, outfitted with bright, fully adjustable Williams® fiber-optic Fire-Sights for awesome low-light performance. And to ensure you'll be the last thing that boss tom never sees, we also dressed our new design in the new Realtree APG™ camo. Paired with 12-gauge, 3 1/2" Wingmaster™ HD Turkey loads and a Super-Full Rem™ Choke, this gun truly redefines lethal shotgun range.

Other specialized hard-hitters include the Model 870™ SP-T™ Thumbhole with a Thumbhole stock design for extra stability, a 3" chamber, 23" barrel and Truglo® fiber-optic sights; and the Model 870 SPS-T™ 12-gauge Super Magnum™ with a 23" barrel and twin beads – both dressed in Mossy Oak® Obsession.™ For optional scope mounting, all models have drilled and tapped receivers.

MODEL 870™ XCS MARINE MAGNUM

**THE MOST DURABLE
AND RELIABLE
ON LAND OR SEA.**

The original Model 870™ Marine Magnum® set the standard for all-conditions reliability, and our latest upgrade to its design launches it beyond the capabilities of any shotgun out there. Featuring the extreme corrosion and abrasion resistance of our proprietary TriNyte™ Black Corrosion Control System,® the new 12-gauge Model 870™ XCS (Xtreme Conditions Shotgun) Marine Magnum will serve and protect in the most extreme conditions on earth. For even more rugged endurance, all metal parts are coated with electroless nickel, and the trigger group is specially equipped to resist fouling and oxidation.

The law-enforcement-style SpeedFeed® I stock and R3® recoil pad with LimbSaver® technology work in conjunction to tame the recoil of even the most potent 2 3/4" or 3" magnum rounds. The stock is equipped with a shell holder to keep up to four extra rounds at your fingertips. Match these features with a 7-round capacity and 18" cylinder bore barrel, and you have the ultimate special-purpose firearm. Anywhere, anytime – count on it.

MODEL 870™ EXPRESS® SUPER MAGNUM

THE ORIGINAL WORKHORSE,
BUILT BIG AND FIERCE
AS THEY COME.

Simply put, this is the most versatile, reliable pump shotgun ever built. It handles it all – 2 3/4" loads to big, thumpin' 3 1/2" mags, the nastiest conditions and years of hard use. If the birds are strutting, our Model 870™ Super Magnum™ will shuck and deliver.

Choose full Mossy Oak® Break-Up™ camo or the matte black synthetic models. Both have 23" barrels for fast handling and easy carry, and include Super-Full Turkey Rem™ Chokes for extended reach. All this, with the same balance and feel you've come to expect from our legendary Model 870 (the most popular, dependable pump gun in history). Gobblers beware: the American standard has stepped up to Super Mag.

MODEL 870™ EXPRESS®
SUPER MAGNUM
TURKEY SYNTHETIC

MODEL 870™ EXPRESS®

AMERICA'S FAVORITE
PUMP SHOTGUN.

Its solid, dependable action makes it America's favorite, and the addition of our new wood laminate places it among the best looking and weather-resistant as well. Take a look in the duck blinds, cropfields, deer stands and turkey woods near you, and you'll most likely find more Model 870™ Express pumps than any other shotgun. It's a matter of rugged dependability, great pointing characteristics and versatility. And precisely why the Model 870 has been the standard for slide-action performance for more than 50 years.

Our Express family covers virtually any hunt with a range of vent-rib do-alls; specialized deer, and turkey combo models; and an array of stock choices including laminated wood, durable black synthetic and Mossy Oak® Break-Up™ camo finishes. New for 2007, we've added a 20-gauge black synthetic model with a 7-shot capacity. It's equipped with an 18" barrel for quick handling and sling swivel studs. You get awesome firepower with the benefit of lighter, 20-gauge recoil.

This is one of the most reliable, best-shooting shotguns you can own, and we're proud to make them. But even prouder of the fact you've made them America's Pump Guns.

MODEL 870™ EXPRESS®
TURKEY/DEER COMBO

MODEL 870™ EXPRESS® SUPER MAGNUM TURKEY CAMO

MODEL 870™ EXPRESS® SUPER MAGNUM TURKEY CAMO

Model 870™ Super Magnums will function with 2 3/4", 3", and 3 1/2" shells interchangeably

Breakthrough bolt re-design keeps cycle stroke equal for all three sizes of 12-ga. shotshells

Super Magnum™ receiver is same size as all 12-ga. 870™ shotguns for similar balance

Trigger mechanism retains same dimensions and crisp feel of all 12-ga. Model 870s

Magazine length unchanged for same balance point; capacity is three 3 1/2", and four 2 3/4" or 3" shells

Superior design and inherent strength of 870™ receiver easily accommodates the power and longer length of 3 1/2" shells

FEATURES

- Functions with 2 3/4", 3" and 3 1/2" shells interchangeably
- Superior design and inherent strength of America's favorite pump shotgun, the Model 870™
- Super Magnum receiver same size as all 12-gauge Model 870™ shotguns for same balance point
- Innovative bolt design keeps cycle stroke equal for all 3 lengths of 12-gauge shotshells
- Magazine capacity is three 3 1/2" shells and four 2 3/4" and 3" shells
- Available in wood laminate, synthetic and camouflaged versions as well as a combo package, which features both vent-rib and rifle-sighted deer barrels for maximum versatility

MODEL SPR453™

AUTOLOADING
SHOTGUNS

AN AUTOMATIC CHOICE FOR FIELD, WOODS AND WATER.

This slick-handling, reliable autoloading shotgun is an incredible value for today's hunter. It's more affordable than ever to own a gas-operated 12 gauge that handles everything from 2 3/4" field loads to 3 1/2" magnum rounds. For a morning's dove shoot with No. 8s, pounding ducks with steel 2s or anchoring a tom with a heavy payload of No. 4, its tunable gas system delivers smooth cycling and softens felt recoil for fast follow-up shots. Dual extractors on the bolt face ensure reliable, ultra-positive ejection.

The vent-rib barrel and receiver have a matte finish for non-glare concealment. Its black synthetic stock is impervious to the elements and stands up to abuse. And it comes from the factory with four choke tubes – improved cyclinder, modified, full and super-full – to cover a season of applications.

We just made your next shotgun purchase an automatic decision – no matter what you're hunting for.

YOUTH SHOTGUNS

INVESTING IN OUR FUTURE.

Young shooters are more likely to become stewards of the shooting sports if they're initiated with a gun that fits properly. This is what drove us to redesign our standard, premium-grade stocks with a shorter length of pull. It's now easier than ever for smaller-statured shooters to get on target and on the road to a lifetime of enjoyment in the outdoors. Our Youth Shotguns are built around the rugged, reliable Model 870™ pump action.

The 20-gauge Model 870™ Express® Jr. with a Mossy Oak® Break-Up™ stock and fore-end has a length of pull that's a full 1" shorter than our standard youth models, so it's perfect for the youngest shooters in your family. Also available is the Model 870 Express Youth Turkey gun with a Mossy Oak Break-Up stock and fore-end. Bring them up right. Raise them on Remington.®

MODEL 700™ SPS™ VARMINT

TRUE TO ITS REPUTATION,
IT'LL EARN YOU ONE.

"Why yes, that's really five shots." Tell your friends it's genetics. Fact is, when it comes to precision, there's no finer pedigree in the industry than Remington varmint rifles. And with the introduction of our new Model 700™ SPS™ Varmint, staking claim to our legendary accuracy is more affordable than ever.

The Model 700™ SPS Varmint is capable of punching tiny groups straight out of the box because it's built on the Model 700 bolt action, the most solid, dependable and trusted in existence.

Its 26" heavy contour barrel is perfectly matched to its high-velocity caliber offerings, including the hot 204 Ruger. Plus, the ergonomically designed black synthetic stock has a vented beavertail fore-end for enhanced grip, reduced weight and better heat dissipation. And sharp predator eyes won't spot the tough, non-reflective matte blued finish on the barrel and receiver.

Other standard features include a hinged floorplate magazine, sling swivel studs, and a drilled and tapped receiver. Lasting impressions also seem to come standard.

CENTERFIRE RIFLES

R3

A VERY TIGHT GROUP.

No matter which model you choose, rifles of the Remington® bloodline have two common traits: outstanding out-of-the-box accuracy and a dependable, rock-solid build. They truly are in a class of their own. In fact, the Model 700™ is regarded as the most accurate, dependable production rifle in existence. It started with our three-rings-of-steel-design and grows stronger every year with a new round of innovative upgrades.

Our **Model 700™ XCR Xtreme Conditions Rifle**, is the most durable hunting rifle ever built. It's super-tuned for accuracy and coated with our TriNyte™ Corrosion Control System to excel in the harshest environments on earth. The stock features patented Hogue® rubber overmolding for superior handling and an R3® recoil pad with LimbSaver® technology.

The **Model 700™ BDL™** has been an American favorite for more than 40 years. It features a high-gloss American walnut stock with a Monte Carlo comb and a distinctive black fore-end cap, plus a hinged floorplate, hooded front sight, adjustable rear sight, and sling swivel studs.

Our short-action **Model 799™** is a scaled down version of the classic Mauser 98 action. The Mini-Mauser action features a clean 20" hammer-forged barrel, richly blued finish and durable laminate stock. Featuring dual opposing forward-locking lugs and Sako®-style extractors, the bolt delivers incredibly smooth feeding and ultra-positive extraction. Both the bolt and receiver are machined steel. Its rugged construction and reliable operation make the mini Mauser one of the most trusted actions of all time.

The **SPR18™** Single Shot Rifle is a solid, dependable design that will give you precise command of that one round, again and again. It comes with your choice of blued or nickel receiver, adjustable sights, a hammer-forged spiral fluted barrel with an integral 11mm scope rail, and walnut stock and fore-end.

MODEL 700™ VARMINT

**STUNNING FROM THE BENCH,
LETHAL IN THE FIELD.**

Built on the famous Model 700™ cylindrical action, Remington® Varmint rifles are the most accurate production rifles we produce. You'll be stunned by the degree of precision you get straight out of the box. The varmints won't be so lucky.

Our new Model 700™ VL SS™ Thumbhole offers a comfortable, rock-steady grip, plus the exceptional durability and good looks of a laminated wood stock. It has a heavy-contour stainless barrel and comes in three calibers, including 204 Ruger.

The Model 700 VS SF™ II is a finely tuned tack-driver. Its H.S. Precision composite stock is reinforced with aramid fibers and features a contoured beavertail fore-end. It's black with green webbing and has ambidextrous finger grooves and palm swell. Twin front swivel studs accommodate a sling and a bipod. And a full-length aluminum bedding block creates an ultra-stable, accuracy-enhancing platform for the barreled action. The 26" heavy-contour barrel is fluted for fast heat dissipation. Our Model 700 VSF™ has the same stock design, but is colored desert tan with black webbing. Its action is satin blued with a 26" heavy-contour fluted barrel.

For those who prefer the more traditional heft of a wood stock, the time-tested Model 700 VLS™ with its brown laminate stock and satin blued barrel, is there to do the job.

MODEL 700™ LV LIGHT VARMINT

**AS DEADLY AND SWIFT
AS THE PREDATORS YOU HUNT.**

You can trace Remington's dedication to the varmint hunter back to 1967 – the year the Model 700™ BDL™ “Varmint Special” was introduced. Since then, we've been bringing you the foremost in varmint rifle accuracy and innovation. This leadership role is fostered by the requests of serious varmint hunters and benchrest shooters. Hence the creation of the ultimate predator and varmint rifle.

With deadly shot-to-shot precision and weighing a mere 6.75 lbs, the Model 700™ LV SF™ redefines varmint rifle mobility. It's built on the finest bolt action of all time, the Model 700, and features a stainless steel, short-action, pillar-bedded receiver; a blind box magazine; and a jeweled bolt. The 22" clean stainless steel barrel has a light varmint contour (0.657" muzzle O.D.) and is fluted to reduce overall weight and increase heat dissipation. Adding to the weight reduction is a custom-designed, black composite stock featuring a semi-beavertail fore-end, swivel studs, and a recoil-reducing, R3® recoil pad with LimbSaver® technology.

Available in five popular varmint calibers, the Model 700 LV SF is one of the most innovative rifles for the varmint and predator hunter on the move.

MODEL XR-100™

RANGEMASTER®

**YOUR SHOT
AT GREATNESS.**

The Model XR-100™ Single Shot Target Rifle puts competition-grade accuracy within the reach of virtually any aspiring benchrest aficionado. Simply put, nothing in its class can compete. It's built on the legendary XP-100 single-shot target pistol action with a solid-bottom receiver. This design creates the extremely rigid, stable platform necessary for one-ragged-hole accuracy.

The Model XR-100™ is fitted with a Model 40-XB™ Target trigger. It is externally adjustable for pull weights from 1 ½ - 3 ½ lbs. The heavy, varmint-contour barrel is 26", and the action is fitted to a black laminated stock with a thumbhole design for comfort and stability at the bench. Lightening vent cuts in the beavertail fore-end aid barrel cooling and make it the ultimate in shot-to-shot consistency.

MODEL XR-100™
RANGEMASTER®

MODEL 504™

**RIMFIRE RIFLE,
CENTERFIRE ATTITUDE.
NOW WITH CUSTOM OPTIONS.**

Now available with a Shilen® custom button-rifled barrel in 17HMR, the Model 504™ continues to raise the bar in rimfire performance. Our legendary standards for bolt-action dependability, accuracy and quality control have changed the way hunters and shooters view the potential of a rimfire rifle.

World-class accuracy comes standard with the new 17HMR model featuring a 20" Shilen custom barrel. Shilen produces some of the finest custom barrels in the industry. The incredibly tight production tolerances deliver a degree of precision you have to squeeze a few round through to believe. Plus, the richly blued barrelled action is precision anchored at two points. All models have a fully adjustable trigger group, clean barrels, a beautifully finished satin American walnut stock with stylized grip cap and swivel studs, and a drilled and tapped receiver.

If you've never owned a premium rimfire rifle, the Model 504™ will instantly show you what you've been missing.

MODEL XR-100™
RANGEMASTER®

BASED ON XP-100 SINGLE-SHOT ACTION

THUMBHOLE GRIP

40-X EXTERNALLY ADJUSTABLE TRIGGER

FEATURES

- Solid-bottom single-shot receiver for ultimate rigidity
- Equipped with Model 40-X target trigger with external pull weight adjustment
- Black laminated thumbhole stock for stability and comfort, and vented fore-end for fast barrel cooling
- 26" varmint contour barrel with concave target crown
- Utilizes the legendary XP-100 single-shot target pistol action

Vented Fore-End

MODEL 504™

MODEL 504™

NEW 17 HMR with Shilen® Custom Barrel

For specifications, see page 37.

Receiver machined from solid ordnance-grade steel results in centerfire-rifle-type strength.

Bolt features dual extractors for positive feeding and uniform cartridge support.

Model 504 trigger group, fully adjustable by a Remington® Authorized Repair Center.

20" satin blued carbon steel barrel with 5-R Button rifling (same as Model 40-XR Target Rifle) and recessed target crown.

Dual bedding points anchor the action to the stock for consistent shot placement.

Six-round detachable metal magazine box fits flush with bottom of the stock.

FEATURES

- Detachable magazine box (6 rounds on 22LR, 5 rounds on 17HMR)
- Rock-solid receiver design machined from solid ordnance-grade steel results in centerfire-rifle-type strength and rigidity
- Newly designed trigger group is fully adjustable by a Remington Authorized Repair Center
- Barreled action is securely anchored in the stock utilizing two bedding points
- Bolt features dual extractors for positive feeding and uniform cartridge support
- 20" satin blued clean barrel with 5-R button rifling (the same rifling used in Model 40-XR custom target rifles, 22LR only) and recessed target crown
- Receiver is drilled and tapped for scope mounts
- Cocking indicator visible from rear of bolt plug
- 17 HMR features Shilen® custom barrel

MODEL 597™ MAGNUM

WHERE
ADVANCED TECHNOLOGY
MEETS LEGENDARY
CRAFTSMANSHIP.

The Model 597™ is easily the most advanced semi-automatic rimfire rifle ever built, and marks the first breakthrough in autoloading rimfire rifle technology in 35 years. The innovation starts with our proprietary bolt-guidance system, which features a unique set of twin tool-steel guide rails for better stability, feeding reliability and greater out-of-the-box accuracy.

Of course, we didn't stop there. The bolt, hammer and sear of the Model 597 all feature an exclusive Teflon®/nickel plating for smooth, dependable operation and an ultra-crisp trigger pull. To ensure long-term accuracy, we've also incorporated a positive-locking, permanently rigid barrel-attachment clamp. Receivers are grooved for standard rimfire mounts and drilled and tapped for Weaver-style bases. Rounding out the list of impressive design features is a last-shot hold-open feature and our patented, slick-feeding staggered-stack magazine.

NEW MODEL 597™ SYNTHETIC
SCOPE COMBO (3-9x32mm)

TRADITIONAL RIMFIRES

A RIMFIRE IS NO PLACE
TO CUT CORNERS.

Remington rimfire rifles are built with the same standards for accuracy and flawless function as our high-end centerfires. For hunting small game, target shooting or afternoon plinking, there's no better choice.

Our **Model Five™** is a solid, tack-driving bolt action ideal for seasoned hunters and shooters, and beginners alike. It's available in standard 22 long rifle and 22 WMR. The American-made brown laminated stock combines good looks with extreme weather resistance. Mount a scope to its grooved receiver or use the fully adjustable open sights. It's fed by a five-shot detachable box magazine.

New for this year, we're offering our venerable **Model 572™ BDL™** Smoothbore with a 22" smoothbore barrel. It's optimized for use with 22 shot cartridges for plinking and dispatching rodents as quick as you can shuck the fore-end. Features include a richly blued carbon steel barrel, high-gloss American walnut stock, bead sights, tubular magazine and a grooved receiver for scope mounting.

MODEL 597™
MAGNUM LS HB

MODEL 597™
LS HB

For specifications, see page 37.

Unique attachment system rigidly joins barrel to receiver for perfect alignment and enhanced accuracy

Model 597™ bolt travels on twin tool-steel guide rails for flawless functioning

Last-shot hold-open for positive identification of empty chamber

Sear and hammer are Teflon®/nickel-plated for crisp, smooth trigger pull

Patented drop-out style staggered-stack box magazine assures reliable feeding and fast, easy reloading

FEATURES

- Bolt-guidance system features twin, tool-steel guide rails
- Offered in both textured synthetic or laminated wood stocks
- Non-glare matte finish
- Patented, 10-shot metal detachable magazine, 8-shot for magnum
- Last-shot hold-open bolt for added safety

Model 597™ 22 LR Metal Magazine. Redesigned to provide flawless feeding of each round, the new Model 597 magazine offers unprecedented reliability. Constructed from a lightweight, magnesium-based alloy and cast as one piece via a non-conventional die-cast process, our metal magazine holds ultra-precise dimensional tolerances and yields an exceptional surface finish. Its extreme rigidity is ideal for demanding, high-volume use. For those who already own an older Model 597, you can own the improved magazine as a Remington® accessory.

GUN CARE

TARGETMASTER™ DELUXE KIT

- 52-piece (true count) kit has all you need – includes 100 patches
- Sturdy aluminum case with positive latches
- 3 sets of 3-piece rods: Rimfire rod (.17-.22), Centerfire rod (.22 and up) and Shotgun/muzzleloader rod
- Precision brass patch jags fit .17-.50 calibers
- Adapters allow for cleaning of handguns (.17-.50)
- Solid assortment of brushes/mops and accessories

Order No. 19055

SPORTSMAN™ UNIVERSAL KIT

- 27-piece (true count) cleaning kit – includes 50 patches (.22 caliber to 12-gauge)
- 3-piece brass rod accepts standard #8-32
- Integral swivel handle
- An assortment of most popular brushes, mops, and patch sizes
- Brass and nylon brushes for cleaning actions, bolts, cylinders and semi-auto slides

Order No. 19054

FIELDMASTER® KIT

- Brass 3-piece rod with swiveling handle
- Rem® Oil (1-oz.) & Brite Bore™ (2-oz.)
- A wide variety of patches and patch pullers
- Brass pistol and shotgun adapters
- An assortment of bronze bore brushes for .22, 270 and 30 calibers as well as 12- and 20-gauges
- Attractive wooden box

Order No. 19052

Remington cleaning kits readily accept standard #8-32 cleaning brushes, mops, jags, and standard shotgun brushes/mops. (The rimfire rod in the Targetmaster accepts .17 components, and has an adapter for #8-32 accessories.)

REM® PAD GUN CLEANING MATS

- Soft, acrylic surface material won't scratch guns or tabletops
- Absorbent top material traps and holds up to eight times its weight in fluids
- A non-slip vinyl bottom forms a barrier to prevent spilled fluids from soaking through
- Fully machine-washable
- Available in two sizes

12"x28": Order No. 18812
16"x54": Order No. 18813

Order No. 19495

BORE™ LIGHT

- Ideal for inspecting used firearms, cleaning firearms and inspecting bore for obstructions
- LED light eliminates intense glare allowing for better viewing
- Compact – easy to carry and stow
- Comes complete with batteries
- Includes both curved and straight light tubes

BRITE BORE™ SOLVENT

- Dissolves carbon and powder fouling, removes copper, lead and plastic deposits
- Low odor – contains no CFC's
- Handy size for field/range use
- Comes in:
 - 6 oz. can: Order No. 18394
 - 4 oz. jar: Order No. 18385
 - 2 oz. bottle: Order No. 18367

40-X™ BORE CLEANER™

- Formerly Remington Bore Cleaner
- 40-X name ties into the products origins in Precision Benchrest Shooting
- Product is uniquely formulated for rifles to improve cleaning, accuracy and performance
- Fast and easy to use – no soaking or foul odors
- White positive closure cap similar to 1-oz. Rem Oil
- Comes in:
 - 2 oz. white oval bottle with child resistant cap: Order No. 18359
 - 4 oz. squeeze bottle: Order No. 18397

REM® ACTION CLEANER

- Easily cleans dirt, powder residue and caked-on lubricants from disassembled actions and fire-control mechanisms
- Dries quickly and leaves no residue
- Comes in 10.5-oz. can with jet-spray extension tube

Order No. 18395

REM® DRILUBE™

- Teflon-based lubricant provides a tough, non-congealing film without the residue of dry graphite lubes
- Keeps firearms functioning dependably to -40°F
- Comes in easy-to-use 4-oz. aerosol can

SHOTGUN CLEANER

- Cleans trigger groups, gas ports, choke tube threading, receivers, chambers, barrels and magazine tubes
- Dissolves powder residue, fouled lubricants, burnt carbon deposits and gunk
- Blasts away gummy caked on grime from hard to reach areas such as ejectors, firing pin assemblies, trigger components and bolt recesses
- Contains no CFC's or carcinogens – safe for polymers
- 18-oz. size

Order No. 18472

REM OIL 1-OZ. PRE-LOADED MERCHANDISE STRIPS

- 4-color merchandising strips come pre-loaded to save time and labor
- Features popular Rem Oil 1-oz. product at a great price point for impulse purchases
- 12 units per merchandising strip
- 3 different merchandiser strips in each case

Order No. 18365

REM® OIL WIPES

- 12 foil wrapped wipes
- 6" x 8" wipe cloth saturated with Rem Oil

Order No. 18411

REM® OIL

- Cleans dirt and grime from exposed metal surfaces while displacing non-visible moisture from metal pores
- Protects internal and external metal parts from rust and corrosion
- Exclusive Teflon formula provides a thin, long-lasting film that keeps actions working smoothly by reducing metal-to-metal wear
- Comes in:
 - 10 oz. aerosol can: Order No. 24027
 - 4 oz. aerosol can: Order No. 26610
 - 2 oz. bottle with child resistant cap in footed clamshell: Order No. 18366
 - 1 oz. squeeze bottle in footed clamshell: Order No. 26617

WINGMASTER HD™

DROP-DEAD BETTER.™

The company that redefined lethal shotgun range with Premier® Hevi-Shot® is proud to unveil the next generation of heavy-density, big-bird devastation. New Wingmaster HD.™

This hard-hitter stretches the kill zone with an ultra-tuned combination of density, shape and energy. At 12.0 grams/cc, it's 10% denser than lead and the scientifically proven optimum density for pellet count and per-pellet energy. Plus, its smooth, round shape delivers awesome aerodynamics and sustained payload energy. It all adds up to the most devastating patterns possible.

Wingmaster HD is also 16% softer than Premier® Hevi-Shot®, which makes it easier on your barrel. And it's significantly more responsive to chokes.

Fact is, the new Heavy-Density master puts more pellets in a 30" circle at any range than any turkey load in its class. It's a lesson big tom will have to learn the hard way. New Remington Wingmaster HD.

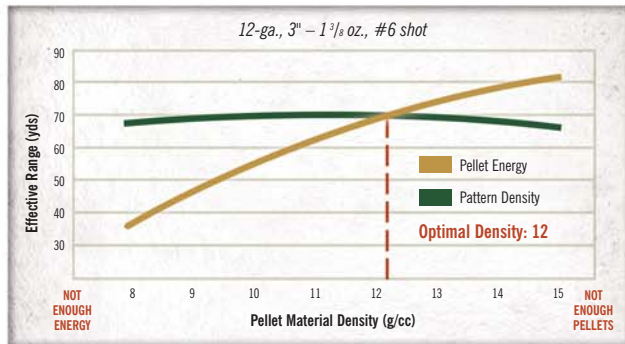

THE ULTIMATE EXTENDED-RANGE PAYLOAD

- Denser patterns
- Devastating pellet energy
- Flies true – near perfect shape

12.0 G/CC – BEST PELLET MATERIAL DENSITY

Testing proves Wingmaster HD™ delivers the best combination of pellet energy and pattern density.

UNIFORM PELLET-TO-PELLET WEIGHT

Wingmaster HD's (Heavy Density) smooth, round shot pellets are more aerodynamic than other lead alternatives. They are uniform in pellet-to-pellet weight and are true to listed shot size.

Other non-toxic shot pellets cannot match up.

Non-toxic and 10% denser than lead, it's the most lethal choice whatever you're shotgunning for:

WATERFOWL • TURKEY • PREDATORS

FEATURES

- HD = Heavy Density (12.0 g/cc)
- Proprietary composite of Tungsten-Bronze-Iron shot
- Round, consistent pellets:
 - Travel straighter and longer
 - Improves long-range lethality
 - Tighter patterns
 - More even pellet distribution
- Uniform pellet density
- 12.0 g/cc density for optimal combination of density and pellet count
- Softer pellets are easier on your barrel and more responsive to chokes
- Better patterns at long and short ranges
- Responds and acts more like lead
- Approved for waterfowl hunting by the USF&W

LEAD MAGNUMS

PREMIER® HIGH VELOCITY MAGNUM COPPER-PLATED BUFFERED TURKEY LOADS.

The high-performance lead load for avid turkey hunters. 3" and 3 1/2" 12-gauge payload leaves the muzzle at 1300 fps. Delivers hard-hitting knockdown power. Loaded with our Power Piston® one-piece wad and Magnum-grade Copper-Lokt® lead shot for dense patterns and deep penetration.

PREMIER® MAGNUM COPPER-PLATED BUFFERED TURKEY LOADS.

Our original Magnum turkey loads. As fine a lead shotshell as you can carry in the woods. Magnum-grade Copper-Lokt® shot is cushioned with special polymer buffering and further protected by our Power Piston® one-piece wad for dense, even patterns. Delivers superb performance and devastating knockdown power out of tightly constricted turkey chokes.

NITRO MAG® BUFFERED MAGNUMS.

Excellent for turkey or long-range pheasants. Heavy payloads of Magnum-grade shot are packed with shock-absorbing polymer buffering and enclosed in our patented Power Piston® one-piece wad to provide dense, even patterns and uniform shot strings.

PREMIER® DUPLEX® MAGNUM COPPER-PLATED BUFFERED LOADS.

A specialized layering of Magnum-grade Copper-Lokt® No. 4 shot over No. 6 shot. Larger pellets deliver excellent retained energy and penetration, while smaller pellets enhance pattern density. Awesome versatility for uncertain shooting distances on turkeys and late-season pheasants.

GRAND DOMINATION

HARLAN CAMPBELL, JR.
Men's Trap All-American
Team Captain

COMPETITORS AT THE GRAND CHOOSE REMINGTON® AS THEIR WINNING AMMUNITION.

Great champions think alike. For the third year in a row, shooters who used Remington shells won more trophies than competitors using other brands at the 2005 ATA Grand American World Trapshooting Championship. Remington not only out-performed other ammunition

in the competition, but it also sold more than any other brand at the Grand. And for good reason! Remington STS® and Nitro 27® target loads provide softer recoil, better pattern performance, and more consistent velocities (not to mention the most reloadable hull on the market). Isn't it time you switch to Remington and step into the winner's circle?

PREMIER® STS® TARGET.

The standard in target shooting reliability. Absolutely consistent from shot to shot. Bar none, the most reliable, most reloadable shells you can shoot. Available in 12, 20, 28 and 410.

MANAGED-RECOIL™ STS® TARGET. Dramatically reduced recoil – 40% less in the 12-ga. load – with target-grinding STS® consistency and pattern density. Ideal for new shooters and recoil-sensitive individuals.

COMPONENTS

REMINGTON® RELOADING COMPONENTS. If you reload your own cartridges, then you shouldn't settle for anything but the best reloading components in the business – Remington. We offer industry-leading products that are changing the way sportsmen think about reloading.

KLEANBORE® MUZZLELOADING PRIMERS. The cleanest-burning muzzleloading primer ever.

- From 2 to 15 times more shots between cleanings
- Dramatically reduced chamber buildup for easier bullet seating
- Specifically designed for black powder substitutes
- Accuracy and velocity equal to standard shotshell primers

Bore scope photo of muzzleloader breech using a competitor's 209 primers after 2 shots.

Bore scope photo of muzzleloader breech using Remington® Kleanbore® primers after 15 shots.

MANAGED-RECOIL™

REDUCE RECOIL TO IMPROVE YOUR CHANCES OF SUCCESS IN THE FIELD.

At some point, all shooters feel the negative effects of recoil. Some hunters experience the frustration of missing a target because of flinching. Others know the aggravation of losing the opportunity for a second shot because of the time it takes for scope recovery. Then there's the shoulder pain after a day of hunting or practicing, which may deter future practice sessions. To fight these effects of recoil, Remington® developed Managed-Recoil™ ammunition.

The Managed-Recoil ammunition succeeds where other recoil-control ammunition fails. Past attempts at curbing recoil have focused solely on the amount of gunpowder in the ammunition. Remington's Managed-Recoil focuses on the entire cartridge by incorporating a specially designed bullet built to perform at lower velocities.

FEATURES

- Fully effective hunting performance with less than 50% of the recoil of standard cartridges
- Less anticipation of recoil
- Increased shooter confidence and improved shot placement
- Quicker scope recovery for faster second shot placement
- Point of aim is within 2" of a standard cartridge at 100 yards
- Target practice without the recoil pounding
- Specially designed bullets are optimized to deliver 2x expansion with over 75% weight retention on shots out to 200 yards

FULLY EFFECTIVE ENERGY AND EXPANSION OUT TO 200 YARDS:

No scope readjustment necessary. Remington® Managed-Recoil™ Point of Impact is nearly identical to full velocity loads.

Point of impact comparison at 100 yards.

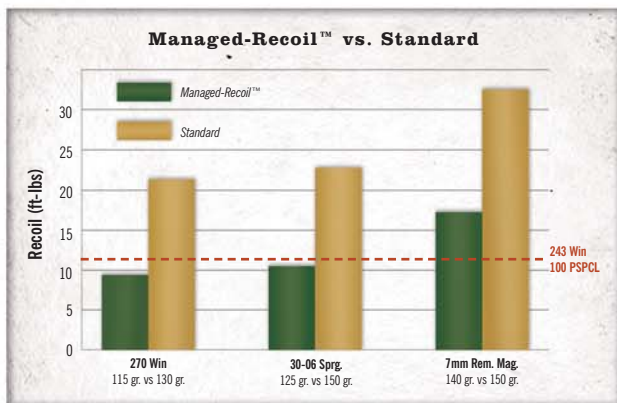

- 30-06 Sprg. 125-grain Managed-Recoil™
- 30-06 Sprg. 150-grain PSP Core-Lokt

May not operate all recoil or gas-operated firearms

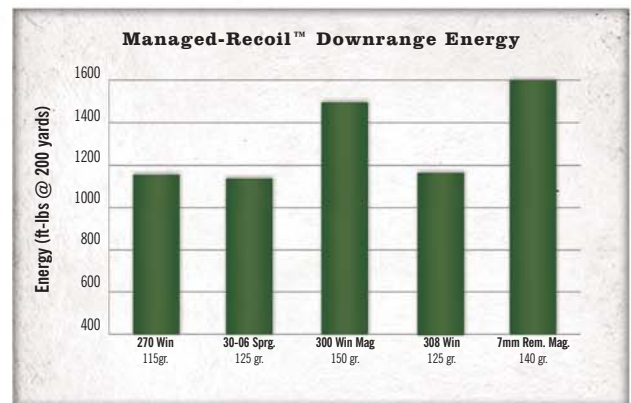

50% LESS RECOIL

Remington® Managed-Recoil™ centerfire cartridges deliver 50% less recoil than standard velocity ammunition. Managed-Recoil 270 Win, 308 Win and 30-06 actually deliver less recoil than a standard velocity 243 Win!

LETHAL PUNCH OUT TO 200 YARDS

Managed-Recoil™ rounds pack a lethal punch at the most common deer-hunting ranges. In fact, their energy levels exceed 1,100 ft. lbs. at 200 yards. Managed-Recoil 30-30 delivers 919 ft-lbs at 100 yards and is fully effective on deer sized animals out to 125 yards.

MANAGED-RECOIL™ APPLICATIONS

YOUTH AND WOMEN

Managed-Recoil™ allows youth and women to practice and hunt effectively and comfortably with half the recoil. It even lets you use an existing gun without readjusting the scope because "point of aim – point of impact" is nearly identical to standard cartridges at 100 yards.

PRACTICE MAKES PERFECT

For target shooters and hunters who target shoot to improve their performance, Managed-Recoil™ cartridges provide more time on the range, without the bruises to prove it. It offers great hunting performance at ranges out to 200 yards, and you can switch to full-power ammunition without scope adjustment.

HUNTING WITH CONFIDENCE

Most deer hunting shots are taken well within 200 yards, Managed-Recoil™ cartridges provide effective performance, with less than half the recoil. The result is less anticipation of recoil, better shot placement and quicker scope recovery.

RECOIL-SENSITIVE HUNTERS

For shooters that are unable to tolerate the recoil of a standard cartridge, Managed-Recoil™ Cartridges are the perfect solution. Effective performance with half the recoil.

PREMIER® ACCUTIP™

THE MOST ACCURATE RAPID EXPANSION POLYMER-TIPPED BULLET AVAILABLE.

Premier® AccuTip™ cartridges utilize a precision-engineered polymer-tip bullet that offers match-grade accuracy and rapid expansion at all velocities for deadly downrange performance. Premier AccuTip provides a higher ballistic coefficient for super-flat trajectory, higher retained energy and better on-game results. Choose Premier AccuTip for deer-sized game or AccuTip-V™ for varmint hunting. Either way, Remington AccuTip delivers performance that blows the competition away.

UMC® AMMUNITION

UMC® RIFLE CARTRIDGES.

Made in the USA, value-priced and ideal for high volume shooting, our UMC centerfire rifle ammunition is loaded in seven popular calibers including the 30-06 Sprg, 308 Win, 7.62x39mm, 30 Carbine and 303 British. The 45 and 50 grain jacketed hollow point loads in 223 Remington and 22-250 Remington are perfect for varmint hunters.

UMC® HANDGUN CARTRIDGES.

All UMC ammunition is American-made in Lonoke, Arkansas using first-quality factory-fresh brass and clean-shooting Kleanbore® primers to provide the best value for practice, personal defense and hunting.

UMC® LEADLESS™ HANDGUN CARTRIDGES.

A must have for shooters that frequent indoor ranges, economical UMC® LeadLess™ cartridges virtually eliminate lead exposure at the firing line. Specially designed bullet actually prevents the vaporization of lead from the bullet's base upon firing. Standard

bullet weights duplicate the ballistics of conventional loads.

Nose profile designed to function smoothly in all action types

LOOK FOR UMC IN MONEY-SAVING LARGE-QUANTITY PACKAGING.

RIMFIRE

PREMIER® GOLD BOX™ RIMFIRE. Premium rimfire cartridges super-tuned for accuracy and rapid terminal performance. Available in 17 Mach 2, 17 HMR and 22 Win Mag, Premier Gold Box Rimfire Ammunition is loaded with AccuTip-V polymer-tipped bullets for incredible shot-to-shot consistency, flat trajectory and explosive expansion. Upgrading your rimfire is as easy as shooting the right ammo. Think Premier Gold Box.

COMPETITION/TARGET RIMFIRE. When it comes to competition-grade rimfire ammunition, there's only one name good enough to share the Remington® brand – Eley. A company with a reputation for the world's most accurate and reliable rimfire ammunition, Eley, Ltd. has teamed up with Remington to offer three grades of their premier .22 long rifle ammunition for the serious target shooter: Target Rifle, Club XTRA and the elite Match EPS. Remington Target ammunition offers the accuracy and economy for Match practice and developmental shooting.

RIMFIRE. Prairie dogs. Tin cans. Or a bulls-eye. No matter what you put in your sights, Remington® offers the perfect .22 rimfire ammunition for any occasion. Remington rimfire ammunition delivers the quality you expect. That's because we put the same level of care into making our rimfire ammunition as we do our centerfire ammunition, so you'll get the maximum performance from every shot.

REMINGTON ORIGINAL FACTORY BARRELS

MODEL 870™ WINGMASTER – 26" Vent Rib

THE ONLY FITTING CHOICE FOR YOUR REMINGTON® SHOTGUN.

If you own a Remington shotgun you know quality and, that when it comes to replacement parts, there's only one brand good enough – Remington. We offer a wide variety of original factory barrels ranging in styles from vent rib, to cantilever to rifle-sighted, so you never have to compromise the superb craftsmanship and dependability that make Remington ownership a matter of pride. Whether you want your Remington shotgun to perform like two, or you're looking to restore "an old friend, there's no substitute for Remington replacement barrels.

To make sure you're getting only Remington® original factory barrels, look for this display at your nearest Remington dealer.

MODEL 870™ CANTILEVER CAMO – 26"

MODEL 870™ EXPRESS® – 28" Vent Rib

MODEL 11-87™ PREMIER® Rifled Sights

MODEL 11-87™ CANTILEVER DEER

For specifications, see page 37.
